jear Dick,
This orrin - ar to take il th for a me icslamointment. There ore 15 minutes $\rightarrow$ so before I'll awaken ner, tiving ne this tim: th write you. "e are botio oksy but I thank me've hed strep tarnots. ine lineered slichtly in the fincm of a sligntly enre thrast, fiter tay briof initisl ferer. ars tye bean are severe, so she's shiting from dental spointment to a secnat medical nee, to ret that, the, checkeq nut. "e are at the years nere
 side frow her aiscoment, which mes Pirly onsiaerable, the msin efect hes

 trir to onut - winul. ove. wow wisu - coul roplece tuia nei nt mocuine so far past an earnea retirment:

L asve severs ressone pre riting. Archives delay in sending you the picture ${ }^{+}$mad taker $A^{\prime} 390^{\circ} s$ base $i z$ so inorin te, trint you should wo tue knowledge. L asked ower to senc you sn enlargement of ifs. They've cut another hunk of it off: As ann as saw his I kne tris. de sent me n out-nf-focus enlargement sha will cerd ne : better one. I do not now wht to ninnint this et the rcaives, $\quad$ I'm not getting it from the nerotive. In, there $i$ he froment it lost before they shot it inr e, an now, mita iowerd's, clegrly, tren inne after mine, tuer is atill nothel iecemisanc. Naturglly, it io the piece tat permits rgument turt a loncer fragment was nesible, wort nf partititinn between the flaws. I ne d not empreize the sienificerce $\rightarrow$ tais $t$ y yu. I in omphesize the urgency of silence, for only yn anl womard kn- Wut amane the $m$ ny immortsnces of tais is twe fntire basient tweir srgument that twe taing may not be the hed far "security. I ewnect to puil it on tom in court, not until wen. I am not telline vohn, wan is overlisbored witu wat he nss. y suit will not duplicete his ond he as a few unnecescary eoc pragleme taint we con void. I tell you tuis, thine tue joy of isonvery shay from you, e suse you

 I now have some sterial thet was withneld frow tae matife ircludes tue most indefinite oscible receirt" for e "misele" remved by munes. y in uiries secking its identificution ss $\therefore$ n exaibit ave be $n$ fruitless (whia moy be tue most fruitful), nuly Rhosds' seeming cindness af calling to may attentinn the existence of tae exhibit. with the minuscule dot-like frtgments. onev $r$, there were larger ones. I've fargotten tia size af the one behind the eye and reading awaris unck lsst nifir reminded me we do ceve the "dismeter" (a point a missed) of the piece from the back of thened. lnw tho -rave re from inre tian ne projection, so they 'new more then the diameter" ( 6.5 mm , nsturblly). The narticles Rhods' sumests are hordy th he of led and recoirtet as misslas. Eesides, these gre are then ane and tur receipt is far sincle ne. You can peruaps understend why the wo n ver hisd this on? way it ass taken me sins tue spring of 60 to setit. I also wave rroper fricisl deniels fits exietence, ton. I avait vesuvius.
roward's iece was on y min, so i tecd of lugeing awoy at my own
 For one or ui.: years it is a remarkably fine jot. It disclnses und retanding and knorledge my or uis seniors do not usve. Sut it is also largely unoriginal, y thing i. whicu + taint de ia painfully gware irf the impassioned letter ue sent with it. In some cases, we had to knowit. In others ne no nubt had the winblem otier wve, not now knowine whether something is uis own original observetinn or is not inderendent but comes from others. ruch ss I lie him and se though I did mit go into tiis, suspect many csses ore not his. i do not really care if he used my mork ani dia not creditit. :care onre if we nula not resist the
temptation. ae is such fine sapling, I d like the tree to be tall ond straight. For exomple, ie knows the mnel romart discloses frogments ir the tanracic area but not thet the gutonsy dnators' fob for lare earlier acknolvedred this. If he
 it in the Anctors', he mal? hote recalled their ellipsis or he'd arve haocked back. Instend of montinnin tais an: wny ther sesea, soked wim th rethink his origingr source $t$ what he cites merely ani ouite inscourutely (as adminis-
 nove little do bt it wes not originel. we gets sround rit crediting thompson wita $s$ monninclese, unneceserry fontnote creditint uim ith o parapuracing on the qualification of forencic pathologists. vow inx ara hardy source on tais, and mony others, in:luiin experts iike alem and ecnt seid it better, but it does permit a little self-eolving in crediting ink. There are geveral coses where he uses my exset woras where there were th is lining (one 1 etill recoll is skidrow bum re cusiity af twe autasy).

1 did not rase any f these uestions itn uin in sny seinue way but I did sk ain if *we loonm we his own obeervtion end if ink wen't really his snurce ss bove. I do not osere, personsliy, bout bi use ar y
 stufi publi hed, so we snoul be emitted to succeed, ste dine in line as putliohers wil? be for nis!). Sut + do care tast wita uis brilivnce ne ornot now edecustely cope wit. wat ni elders cunst, ta like ais to be buls to buttle himself now because it gets hrder later. 1 tell you this ot for you th belsbor fim but becouse of the greut respect he we for you e that pou con be lert to it in other contexte na ive uin the little nol, he needs. *e has : fine mina ond at ne doer heve great potential. nd, unlike so meny o here, he uas made origingl
 got:en nd mould mev. wve shecked bak to find simply becouse there is no time for it, zn: "tu the ink frement, aich redoubled my efforts on the "micele" receift twat paid off. I wes mere nf tuis oosoibility but i ctill geve aim
 over my unvitten noteriel, wien is in : seperete file.

 5 mse meme, ane 90-3. If possibl\%, it reber 35 tr 10 mm .

I ies re it an yod to lecide is, foer your non resime, you nt th gnt feel you en rise the foregoine vuestiche vita ..overi. Lt ie hiry. vonsider only
 taere is no otaer aistruetive mapoe to be esrved. tis immterisl to me lor perantil reasons, believe me. 1 an mare aisturbed by anethia elders do, like John preempting from me wat i told wim in confiderce, nd tast henot turned menff of Jogn. It ienot i oterish to me if ae an learn young, for tai cen b nefit anim. But it will not be eosy to do, not without the deepest embarrassment to aim. Thet slone cen uve bed conse uences. If ynu feel you connot, i micht fol tart vey. I hen't thought it tornugh, but there segne no eesy wey. That ocou ned inmefistoly i did on tepe, ss sbove re: Tink an: dmisstr tive papers, where told uim bluntly tiese are not administrative pepers.

Lest,
