

a/c/ee

Dear Dick,

In addition, I presume you are familiar with Deed's testimony, 54258, and the exhibits, 125H48-C. Hope you can do something with him, at least find out if it is for real. Guy is doing very well in Sicily when everything is considered.

And it will be excellent if you can get a Canadian committee going. Write Steve Lorton, 5011 Box 150, 18 305 Westwood Plaza, LA 90024. Fax 156 and 10-54.

What is exciting is what you point out about the error. She doesn't have the correct trajectories (and I've forgotten what I learned in ROTC) to see it. It is just plain common sense.

I have made a copy of your letter and am sending it to Dr. John Nichols, Kansas City, who has done his own excellent work in the field, including by far the best with the weapon. He has conceived and done what occurred to no one else and in addition, is an expert pathologist. If you hear anything you will know why. He has, in addition to his skills, the weapon with the right sight, the equipment with which to measure, the equipment with which to photograph, and the mind that all require.

Excuse the haste.

Very much,

Sincerely,
