Dear Dick,

Got T.M.B. Skolnick. Wrote them. No response. Trying to arrange TV contribution. Transportation problem. I can get the truck on a top show, where I'm known, but there is no budget, hence no truck. I'm trying others. If they present same obstacle, I'll try other approaches and, in fact, already have, including asking President of his college to invite me.

He Amiel. Jgh!

Nothing further from archives, except also, including John. His conduct & manner more and more strange, less and less like mere eccentricity. I have some ideas as to what he may be up to but before I express them I wait for confirmation from Goren and/or other.

Not yet generally a story of LEE's conduct on part of a reporter with the length of one of his or one of the news items. Right now, however, he now realizes this affair really says the President's confidence in Report of his own Commission wrong. Rather will be a further story on the conduct of LEE's-not-acknowledged and the matter in the country generally. Interestingly enough, with a large segment of the world from Shea's report which is cited in the last issue, and the matter of LEE's conduct.

Will be a further story on the conduct of LEE's, but I'll wait for confirmation from Goren.

Best regards,
Jgh.
