

4/24/71

Dear Dick,

A visit from late-arriving Jerry Folicoff and a crew of his fine young friends who are attending the peace demonstration cut sleep short last night, took a big hunk out of the early part of the day, and leaves me tired without having done much work. The demonstrations must, from the TV accounts, be by far the largest and most effective. Not a single nasty slur did I see or I catch. She looked at more than I.

Thanks for the good letter to the book stores.

Howard plans to be here earlier. He may, perhaps, want to come again later, with you, which presents no problem here. The one thing of which I apparently can be certain is that my publisher will make no arrangements for any appearances. To date, not one, only argument. Jerry and I have arranged the few there have been, in HI and DC. Nor does the dog present any problem. We like them, as long as they don't kill birds.

Re mail: did you also rubber-cement the stamp on your 4/19?

I have not done much writing since you were here, nothing not published, anyway, but I do have all the declassified CDs. You might want to browse, as Howard also might. I've not had a chance to look at them. I did go over the Ferris docs of two kinds: those the Archives pretended were all and sent me automatically; and the rather large number they did not, to which instinct led promptly. They can't ever be honest. These are fascinating, and I think explain a number of things, including Ferris's "vacation".

Nothing else really new except unpleasantness, and why go into that?

Again thanks. It will be good to see you again.

Best

HW

19 April 71

Dear Harold (cc. Roffman)

Here are my tentative plans for a trip to the states in June.

I'll drive from Kingston to Clifton, N.J, on June 4, and will spend that evening in Clifton (or possibly in Trenton). On the morning of June 5 I'll drive down to Frederick to see you. Will arrive in Frederick the afternoon of June 5. I'll spend June 6 and possibly June 7 with you-- that is, I'll sleep at your place on June ~~5~~ 5, 6, and possibly 7.

Howard can tell me whether he wants to go down at the same time. If so, I'll pick him up somewhere convenient along the way.

Question.: Do you mind if I bring along my small dog, a poodle? He's well behaved, and probably will not be much trouble.

I have sent about 50 letters to booksellers in Kingston, Toronto, and ~~Montreal~~ Ottawa. Will soon be sending to Montreal, and perhaps to other ~~xxxx~~ Canadian cities.

still,

Dick

Re:

QUEEN'S UNIVERSITY MEMORANDUM

I disagree that Fisher or any of the Panel does know the significance of the fragments in the brain. They need not have given such exquisite detail — they could have said much without saying what was essential and meaningful. I agree that Fisher is responsible for much dirty work — even that he duped other members of the panel and played them for suckers, but in this matter I think he simply did not know. If he knew, the Panel Report would not say what it does.

I received from Sylvia your letters to the NY Post re Berkham's comments on Frame-up. I think you can look forward to others like this ~~etc~~ when (if?) the biggies get round to reviewing. They just can't stand the truth.

Bye for now.

Still

Dick

Re:

Sorry for handwriting. My typewriter is temporarily out of whack.

QUEEN'S UNIVERSITY MEMORANDUM

15 April 1971

Harold-

Thanks for copies of Frame-up reviews. I sent the SR review to you today, thinking that you had not yet seen it.

I'll use these when talking with booksellers, and may send copies to dealers in Toronto.

It's possible that all the suspicious things about the envelope containing the 399 photos are my doing. I remember holding a couple of envelopes for quite a long time before taking them to the post office. And occasionally I use rubber cement in closing mail that I have re-opened. Sometimes, too, things get through without postmarks.

I don't know when I can come down to Frederick. When I decide, I'll let you know at least a few weeks in advance - and will be in touch with Howard, too. If your place threatens to be too crowded, I may be able to stay with an old friend who lives in Gaithersburg, Md - not too far from Frederick.
