Dear Hal,

My god, the pace of contemporary events! I wanted to write you with some impressions of the Garrison trial & of the Hunt Watergate testimony ... but before I could get my thoughts together the Middle East

exploded again, A new resigned & new hard, author of the curious book on Oswald, is to be the new V.P.! The mind boggles (yet again). So I have only this nasty no fee for the time being - just to keep in touch. More later -  
Love, Neil
