

5/23/70

Dear Bill,

Your phone call was wonderful. I am not sure, but you can see. It, Warrick's control it. They cancelled that story.

I know it's not a little bit of a little word today. My wife's visiting tells me how it is going! But it felt good, and I look forward to more, if it comes and her 20.

While I do I somewhat better about the medical checking, I still regard it as inadequate and, now it's a little, I shall be at your office of the dis-
gnostician.

With Dorothy's help, it is a regular charge. I am going to do with it a regular matter with it, I am going only what I recall of having read in the news. I believe the regular delay is because he does not have counsel, and regular trial counsel. I am sure someone take some actions for him, and I suppose hearing them will delay it. I know the Garrison office is not disposed to press him with a regular counsel. I also understand he expected the ADI to take the regular delay for the issue for them in it.

But none of this is of my own knowledge. It can be wrong. It is merely what I've heard.

The change in the weather does me think of vacations, nice things other people have. If you and your wife want to go, I hope it can include staying near. I have accommodations, a quiet place, a pool and sets like it.

Again, thanks.
