Dear Hal,

Good to hear from you and to know you are seeing a physician. I would agree with your friend at Mayo's regarding the psychiatric consult. Get a good neurological first. Let us hear how things progress, and remember: we can still go ahead with plans outlined in my last letter, anytime.

Am a bit puzzled by your remarks concerning Thornley—is this a perjury case you are describing? Rather a long time finishing, isn't it?

Must go, my friend—more later. Do take best of care possible.

Cheers,
