

8/6/68

Dear Bob, Bob,

Relet 8/2-by all means. Further, I can supply you with the appropriate pictures, including Oswald in his CAP uniform, the 544 Camp bldg, and its identical address, 531 Lafayette, and the FBI and Secret Service reports quoted, if you want to devote more space.

Wish there had been time and space for more, for the subject is ^{if} not exhausted. Also, ~~is~~ you want the letters I wrote the New Yorker and their acknowledgement of receipt? Can do.

To bring you up to date: before last trip to N.C. (returned 7/12) I roughed out a short book COUP D'ETAT. After returning and catching up on ^{done} the inevitable accumulation, getting notes ~~xxxx~~, letters answered, etc., I finished it up and I have just finished another short book, "A Citizen's Descent" about the man who can't touch bottom.

I believe that those who would teach the pope piery should themselves pray. It may never be published, but ^I fear that unless we do something about him, Merk will ruin us all. Aside from that, I have had a bellyful of his endless thsieveries, which may shock you and mean nothing, but when I say wait until you see the book. He is an inconceivably corrupt and egocentric man capable of what the ordinary person would never believe-and doing it all the time. We will not survive him unless we do something.

Coup d'Etat is on all three assassination and has much about the South in it. Vince has just read it, Gary Schoener is now, and they both say it is the best yet. Makes me feel very good, but a little frustrated when I recall that my fifth book, the hottest yet, is unpublished the written 9/67, a year ago-and no one has caught up with it yet. Good luck.

Best
