## HOW TO SAVE ON LOW-RUN REPRINTS

Dear Sirs:
We are writing you today to describe the reprint services of our newly formed Printing Division. Tai Wan Enterprises' two principal partners are a Chinese and an American with almost ten years' experience in dealing with local reprint publishers and have considerable informal experience in representing American publishers with local printers. We have now decided to formalize the operation and believe we can offer you significant savings on your low-run reprints.

We first acknowledge that Taiwan paper and binding does not meet U.S. and European standards. However, we believe that the quality is good enough and the savings sufficient to make it worth your while to investigate our proposition for low-run reprints.

Three types of Taiwan paper and a sample of binding cloth are attached to this letter. On the paper we have printed representative costs in US dollars for low-run reprints in Taiwan. The figures are C \& F the nearest American, European, or Australian port. On the two tables for printing on Taiwan paper (pages 4 and 5 ), the charges include photography, printing on each of the three types of 80 Taiwan lb. (thinner paper available for thicker books) Taiwan paper, binding in Taiwan cloth, packing, and delivery to the port of your choice. Airmailing sample copies of the reprint and other extraordinary but unexpected expenses would be added to the cost.

The special table on page 6 is only for large-run reprints in which you might want to consider shipping your own paper to us. This would take additional time to handle, because it would be necessary for us first to obtain permission of the Board of Foreign Trade for you to import the paper duty-free. (Permission will not be given for the import of small quantities of paper.)

From these tables you can figure the approximate cost of reprinting one of your books in Taiwan. The representative costs are based on books of 200 pages, and you can figure the total cost by adding to the base cost the number of additional pages times the cost per individual page.

Example A: You want to print 200 copies of an $800 \mathrm{pp} 5 \frac{1}{8}$ " $\times 7 \frac{1}{2}$ " trim-size book on $80-\mathrm{lb}$, Simili paper. The total cost would be
$\$ 126.32$ (base cost for 200 copies of 200 pp ) +600 (additional pages) x $\$ .3954$ (cost $/$ additional page) $=\$ 363.56$

Example ह: You want to print 500 copies of a $750 \mathrm{pp} 6^{\prime \prime} \times 88_{8}^{\prime \prime}$ trim-size book on $80 \cdot \mathrm{lb}$. Printing paper. The total cost would be
$\$ 318.57$ (base cost for 500 copies of 200 pp ) +550 (additional pages) $\times$ $\$, 8639$ (cost $/$ additional page $)=\$ 793.72$

These costs are representative of present costs, but we would send an estimate on work for your confirmation prior to proceeding with the reprinting.

Time is undoubtedly another factor in your consideration of reprinting in Taiwan. We can produce on the schedule below for any number of copies unless problems arise that require clarification. Also, it does not include the time used to send and return an airmail sample of the reprint for approval. This time, approximately three weeks, must be added.

## Packed for shipment

Less than 10 volumes - within 15 days of receipt
$10-30$ volumes - " 25 days " "
More than 30 volumes - we must send an estimate

Shipping time varies, but most shipments would require
30-40 days to a United States Eastern port
$15 \cdot 20$ days to a " " western "
$35 \cdot 50$ days to Europe
20 days to Australia

Tai Wan Enterprises Company will not accept for reprint any title currently under copyright protection. In the U.S., this means that any book copyrighted since 1940 cannot be reprinted in Taiwan. If our information is current, no book published after 1906 can be reprinted If the copyright has been renewed. However, the copyrights on many books were not renewed and many more were never registered for copyright. We also cannot by law ship more than 1,500 copies of any one title to the United States. Chinese law requires that we present to the appropriate government offices the following documents:

1. A letter from the publisher commissioning Tai Wan Enterprises Co. to reprint the work in a specific number of copies and stating the copyright status of the book, and
2. if the book was published after 1906, a letter from the Copyright Office, Library of Congress, concerning its copyright status.

When we send you our firm estimates we will also enclose an agreement for each title. Payment in the form of a letter of credit is acceptable, but the following payment schedule by US dollar check is also possible:

Return of signed agreement
Acceptance of sample
Receipt of shipment
$1 / 3$ basic cost
$1 / 3$ basic cost plus extraordinary expenses
$1 / 3$ basic cost

In summary, we believe we have definite services that can benefit you in making low-run reprints of some of your titles that need to be brought back into print, but the reprint of which would not be feasible in your own country. We do not pretend that we can offer jobs that meet top-notch international standards of production. But then, you wouldn't be paying for that either, would you?

Why not send us a list of titles for an estimate so that you can compare?

Sincerely yours,

Encl.
