Confidential

Joel Palmer phone call this a.m., ending about middey.-noon/

The ostersible prupose of the call was to ask if I knew what evidence besides Russo Garrison had on Shaw. I told him I had never asked, never seen, and assumed he had more, as I had written in O in MO.

We got into the Perrin-Rich-Box by datter and he said, in effect, that this had been Garrison's idea, with him even going to the Kittie's home, etc. that he was with boxley and B's reports were accurate, that he hadn't said more to me when I had questioned him because he felt under obligation (no longer) to Garrison. He had just been in Tampe on the hoffman matter when this happened.

the says Garrison was about to make further charges against Bradley then it nappened, with the release all written, over his and Boxley's objection, as I recall. Several times he said Garrison was diagusted with his staff and their attitude and was about to do something.

On Show, he said he is surprised they didn't use what they had from Voebel, apparently a phoned interview with Alcock, about a dinner party he had ettended that was so degenerate he left. Ferrie and Shaw both at it.

Nancy believes her husband murdered. The could not say how this squared ith Perrin be ing seen by four witnesses two minutes from bealey Plaza. Obviously, they are mutually contradictory, ubless she also believe it was not her husband she buried, and this he does not say. The says it was JG's idea that a batin seemen's body was substituted.

The knew Boxley returned to N.O. the Sunday night, the night after I interviewed him and appearantly was at oel's. He claims not to know the atory Boxley was giving the media, that JG wee fed pills by the steff to make him their creature. Promised me Brawner telegrem. Says Alyea film stolen.

Mis book will be handed in in two weeks. Done now. Expected out in April-May. Tentative title, "The Killing o the President, 1963". This, as I pointed out, is not consistent with his description of the contents, the N.O. case. Nor is it with what he told me in N.O., that it would be on Panister. I wondered, efter the call, if he was asking me things for inclusion. He did no indicate this in any way.

Retner en expensive substitute for a letter, this long daylight call.

Claims he head A sey there was radio equipment in apt, that Boxley showed 8-10 picyures, not just Bradley's, and that "walking man" pictures given him to show to these people by JG. Asked me about Russo as Garrison's sole evidence, and show to these people by JG. Asked me about Russo as Garrison's sole evidence, and show to these people by JG.
