## 'Bremer Not Alone'

MILWAUKEE — (AP) — An American Party presidential candidate, Arthur Bremer, said there is evidence that more than one person was involved in a plot to assassinate Alabama Gov. George C. Wallace.

Schmitz, a member of the John Birch Society, said yesterday that the organization would make such allegations soon in its American Opinion Magazine.

"I'm checking out all the facts myself," he told a news conference.

Schmitz said Arthur Bremer, 21, of Milwaukee, who

was accused recently of shooting Wallace last May in a hotel in Birmingham, had an "other" associate from Milwaukee who died some time since the Maryland shooting.

The alleged accomplice was variously described by Schmitz as "a much more sophisticated partner," "a mysterious shadow figure," and "a mentor."

Schmitz, a native of Milwaukee and a Republican congressman from California, has been campaigning in Wisconsin during the Labor Day weekend.
