

Dear Robert,

11/13/93

Not to get behind I answered your letter of the (undated) 8th in a rush yesterday, before I was aware of the considerable volume of Livingstone's atricoity. Helpful and thanks because you copied so I'd not.

Your 11/9 re Carroll's Graf is even wilder: they are publishing two books by me next year, rushing the first for April publication, meaning manufactured a bit earlier. It is a strange situation. They are the copublisher with a dear friend of mine who is their counsel. He happened to have visited us about the time I was getting started on NEVER AGAIN! I described it to him, he said he could be interested, when I sent him some of the earlier chapters he <sup>w</sup>ent <sup>to</sup> it, and I think he made a mistake in judgement, to let the anniversary books run their course. As soon as I told him about my Posner book he was interested. So, as I learned about a month ago, he will copublish them with C & G. Which has just published a crazy man's crazy crap about me. About which when I can I am preparing a detailed record for history.

He and his son copublished the King book with them. His son has published some good books on Malcolm X and Thurgood Marshall.

I think it is rather like the environment in which you live: money. They made much on Livingstone's two earlier books so they contracted the third.

I'd forgotten what Crazy Harry said about me in his appreciations. I did recall his biblio. Thanks and I'm glad to have it and will use it!

So, again thanks!

Dear Harold-

Just a quick note to add to my letter of yesterday -- here's a copy from the acknowledgment from High Treason 2 (which you've probably seen before). But what a difference in attitude between books. What the hell went on with this guy, anyway?

Another point -- if you are this horrible person interfering with the assassination, why did Carroll and Graf republish the Martin Luther King book (FRAME-UP)? Even with Livingstone's book, Carroll and Graf put out so much assassination material that are often conflicting in viewpoint, why couldn't they publish a new book of yours.

Best  
Robert
