1/17/92

Dear Robert,

Hasty thanks and two reports before taking a nap for as you can see above, I'm tired. Both btaches are weorthwhile, so th nks. 1/15 here today. And R oxann coming for dinner Sunday. Plus the Post has and has trascribed the tape. I'll eventually get it and a trans-cript. So don't take more time on that.

If it is not too much trouble, it would help me if you either Scotch taped or stapled pages that belong together. I am not able to spread things out on my desk because I must keep my legs elevated. This means that I went over that very big btach with it on my lap and also had to put it in order at the same time.

By in order I mean by date, within file folders. I've made a separate file of mag. articles.

All this is ~~isn't~~ for the historical record, for others, if not now in the future.

The other side may interest you. I tried to make the copy on other than legal-sized paper and it was too short. It is Garrison's copy of the report on Perrin's death, the underlining's Garrison's.

Uptil today press interest has been too much. Four reporters by phone and one in person yesterday.

It has been like that most days except that some crews have come here.

Dutch TV day before yesterday. I've turned down those that require travel to DC.

48 Hours is working on something but I told them right off that any travels means some hazard for me now and I avoid it. Besides, will CBS be other than it was?

again thank and best wishes,

Harold
