Dear Mr. Weisberg:

You will have seen the article; but you may not have seen the picture. Tulsa and Kansas City omitted the picture. The picture is necessary to understand the article, and the itinerary, and the public relations intention behind the whole, I believe. Well thought out operation.

I haven't seen anything ^{else} in Scott. He is death on the Cong these days.

Would you please send me a flyer on your books; I seem to have misplaced mine. If there is anything out since Photographic Evidence, I need it. You could send COD, or send price and check will come posthaste. I have someone who is very hot on your books, too.

I will send the requested paper right away. It should help very much to have an artist on this. Help to eliminate errors, perhaps, as well as make discoveries.

Re, Weatherford on Records roof -Craig was supposed to be at 505 Main, I believe. A vast number of deputy sheriffs claimed to have been there. And they all claim to have run over and made a mass assault on the fence. I know of no photographic evidence of this. These same men played a big role that day getting key witnesses and finding key evidence in the book building, going to Irving, going to the Texas Theatre. I think they were already behind that fence. Brehm said officers and "reporters" came down the hill and nabbed him.

If you bought that mess of Manchester's, you might re-read what the widow wrote on the picture she sent the widow. I wouldn't ever underestimate Mrs. Jacqueline Kennedy.

You might also note from Manchester that he is a sell out. I mean bought off. Not just a silly ass as I once thought.

I'm the one that's been the silly ass. I have my yellow eye on Mr. Holland now.
