

Dear Mae, *Bussell*

8/9/77

Thanks for your 8/5 and the enclosed copies of what I take it you were told is all the FBI files on you. There should have been a covering letter. None was enclosed.

Some of the distressing detail of your letter was new to me. I'm sorry.

These are not all the files on you, as I'll explain. Besides, it defies reason to believe that once you got a radio program and starting making all kinds of charges against the FBI they would not keep records. I think I can help you on this.

You got remarkable service. Your request was of February 27, 1977. That the records were sent to you in under four months is exceptional. I've been told that some of my files are on their way--after two years. And only some. Three weeks ago I was told. Yesterday I was told they are scheduled to be mailed tomorrow. I suppose others will be mailed later.

This represents some value to me if I have to contest withholding and allege pre-judicial treatment. It is not the only such case I now have. I do not expect full disclosure of all their records on me.

If you have wondered about the numbers typed and written on, I believe I know what they mean. When there is the 89-93 number, the 89 ~~XXXX~~ is the code designation in all FBI files for Assault or killing of a federal officer. In the case of field offices this is followed by their file numbers. At headquarters it is filed by the HQ number. Where on several of the 62 records there are two other numbers, the third is what they call serials, roughly individual items although sometimes the attachments have the same serial or a second or third record does, too. I believe 62--administrative inquiry--miscellaneous. There is a 105 file indication, I think at least on a San Francisco record. I think that represents internal security--nationalistic tendencies.

Bearing on internal security, there is a record that indicates a referral to a room on another building, as I recall Room 819. I think that is the Federal Triangle Building at that room is an internal security office room.

You have not been given the field-office files on you. They have "complied" with their usual trick, from what they call FBIHQ files only. They pretend this is all. Nonsense. From these records I take it that Carmel is under the SF office. There may be a residency office in or near Carmel. You want all the field office and residency office records, not just HQ is you want all. Your request is not limited to HQ. I've just reread it. It is not unlikely that most of the files on you never reached Washington. Or me. Or others. If you do ask for more don't ask by these numbers. I think it is likely that each field office in an area in which you have spoken or been broadcast should have records. In addition from these records Dallas and New Orleans, too. (The "OO" means "Office of Origin. That referred to the JFK case but I'm telling you in case you get another records, as on you.)

From these records you also know that the Secret Service has records on you and that some of its field offices also do.

Please excuse the haste. I've had a guest for two days, expect another momentarily and my working day has been reduced by what I hope is not going to turn out to be a new medical problem. If you want to ask for the other records my suggestion is that if they earlier gave you the number of your request that you refer to that number, the date under which the records were mailed and then refer back to your letter in which you ask for all records relating to you, not just those in headquarters. I'd then say this includes any and all field offices and your request does cover those field office files. If you get any more I'll be glad to go over them. Thanks much,

best,

Aug. 5, 1977

Dear Harold, Sorry about the delay.

I have been swamped, as usual... as you are.

Here is my letter, dated Feb. 27, 1977.
Documents were mailed to me June 29, 1977

A few comments on the enclosed, brief, because of time. If questions, as more.

1. Sandra Good document, 11/4/75

I got three telephone calls from the Manson family, threatening to kill me. Then I got the letter. The calls were not totally "unknown persons" taken from random. The callers were unknown to me, but they identified themselves as part of the family.

I have maintained that the Manson family was a military intelligence operation to discredit the hippies, cause violence in the suburbs..

2)

Correspondence with Klaarence Kelley.

(sorry about the bad copy. My machine is low on ink)

April 9, 1976, I wrote to Kelley

April 21, 1976, Kelley answered

April 25, 1976, I asked Kelley again for information

May 13, 1976, Kelly answered me.

I had enclosed in my April 25 letter, the original April 9 letter.

3. 9/17/67 MESSAGE "DUE TO THE FACT MRS. BRUSSELL CONTACTED HIM GARRISON"

The correspondence about New Orleans is interesting.
Here is how it really happened.

I got on the plane in New Orleans for San Francisco.

I didnt know the flight went through Dallas when I bought my ticket.

We stopped in Dallas for about 30 minutes, so I dont believe I even got off the plane.

After everybody was on the plane, seat belts attached, they announced on the speaker "dont be nervous, Take your time.

We received a call there is a bomb on this plane"

Get off as quickly as possibly"

As we were getting off the plane, just before going down the steps, two Dallas Police officials came to me, took me by the arm, and led me into a small room, to the right, away from the other 100 people who were mingling around.

I was kept in that room.

Two cops sat there, one at the door, one against the wall.

My luggage consisted of one bag of clothing, and another bag with about twelve spiral notebooks, charts of the "DALLAS FAMILY TREE", with information about George DeMohrenschildt, Ruth Paine, Marina Oswald, selection of the motorcade route, and placement of Oswald in the Depository".

They went through everybodys camera, luggage, praline nuts, pictures, packages. The plane was emptied on the field, meals thrown out, new food brought on. THEN, I WAS TAKEN OUT OF THE ROOM.. WHERE SIX OR SEVEN MEN identified themselves, CIA, FBI, etc.

I opened my suitcases in front of them, being the last person out of the room, the others having entered on the plane.

The two suitcases were closed. They told me to go down to ramp 16, and get on the plane.

In those days, I was STUPID.

I went on the plane, leaving the notebooks behind.
The suitcase with the clothing was in San Francisco.
The suitcase with the notebooks never arrived.

I was told it would be returned by special plane, hand delivered, in a few days.. THEY WANTED TO COME DIRECTLY TO THE HOUSE.
I TOLD THE SCUM BASTARDS NOT TO CONTAMINATE MY HOME, I WOULD MEET THEM AT MONTEREY AIRPORT.

FIVE DAYS LATER, VIA AN "VIP" TAG, THE SUITCASE WAS DELIVERED BACK TO ME. obviously copied in Dallas.

While I was in New Orleans, a woman named Caroline Gilman, along with Husband Peter Gilman, co-worker with Onassis, author of Diamond Head, CIA bastard #1, gave my son, Marvin, what was supposed to be an LSD. Marv, at the time, was making \$150 a week, retainer, for Bobby Daren, musician, and was a straight A student at University of Calif, Santa Cruz. Marv, from the acid, went completely out of his mind. He became suicidal, was hospitalized four different times. His father spent \$40,000 on his medical care for eight years.. and Marvins savings, over \$30,000, were spent as part of his care. Dr. Eric Burne, author of Games People Play, called to Los Angeles Mt. Sinai hospital to say that Marv, whom he knew in group therapy, was not suicidal, schizophrenic.. but that he obviously ingested a poison. Gerry Baron, Marv's lawyer, flew to LA because they were going to ship him to CHESTNUT LODGE, Maryland, and denied that they knew where I was, even though He had always lived at home and I was the legal guardian.

In the midst of all this, Eric Burne, walking along the beach in Carmel, dropped dead. Gerry Baron, his closest friend, read the eulogies at the funeral. A week later, Gerry was dead. The only two witnesses to fight the case, his psychiatrist and lawyer, were dead. ALL THIS STARTED WHILE I WAS IN NEW ORLEANS WITH GARRISON.

This is important, because you will see that dated, 1966, they began a file because I defended Mark's book in the newspaper. Therefore, they knew full well about me when I went to New Orleans in 1967. I was giving talks around town to local groups.

This file, of course is only the early dates, and the latest dates, and they have obviously left out the middles.

Enlosed is a list of my weekly radio programs. I have been doing this for 5½ years. and now get them out, mass produced, hundreds every week.

Best regards
