

6/28/71

Dear Mae,

Many ~~xxx~~ thanks for your voluminous and helpful response on Jaworski. I have had to lay that writing aside for pressing needs on suits, so I've not time to read it now. I'll do that as soon as I can return to the writing, which I am anxious to complete. I have that chapter retyped, but can add to it.

I do not have Lifton's book because I already had that stuff. However, it has been so long since I've looked at it, I do not recall as clearly as I'd like. I'll have to go over all of it again when I can.

One of the other things that has been baffling me is where I saw that Dean Storey (Robert G) was in the OSS. Was that in these excess transcripts, too? If you remember, the citation will be enough. I can then find it in the session of that date.

Your foundations clips include sources I know I do not have, like LA Times.

I think the current flap about the Pentagon Papers is very healthy. I wish the papers' lawyers had had more time to prepare their arguments, for there are areas they could not explore and apparently had no knowledge of.

Your radio appearance sounds exciting. If you go ahead and do it regularly, you will find it stimulating and challenging, but also an intrusion into your regular life. I think you'll enjoy it much, tho.

I read Kaiser's book when it first came out. He then said he'd see me when he was in this area. He has been twice that I know of and hasn't phoned, so, having more to do than any one person can, I've forgotten that. There was a real opportunity there, esp. because he had all the FBI reports. Too bad. But maybe Blehr's efforts will cause something. There has been little in the papers here, but I have her submission, or at least all that appeared in the Freep, and it is impressive, if it is also incomplete. Don't know anything about her.

In the event the foregoing is not explicit, I am preparing to file more suits.

Again thanks, and good luck!

Thursday evening

Dear Hal,

Sorry about leaving out the Saworski information.

Enclosed is a load for you. Maybe it needs explanation. I picked out from my "Foundations" notebook what I think you wanted.

Several pages, marked together and on top, are from the book put together by David Lifton. I know you must have it, the meetings of the Commission. It is very important!!! one of my best books. There are three references to Jaworski in these meetings of the Commission.

Then, in 1967, the New York Times broke the story about the CIA Foundations. I took every article at the time, from New York Times, Newsweek, Time Mag. etc... and cross indexed these articles.. to names, foundations, if you read these articles very carefully, you find the Anderson foundation, Jaworski's foundation... and Sarah Hughes, the Dallas and Houston foundations, Meacom, DeMohrenschild's friends, etc. etc.

Maybe you have all this.. but if not, it is worth spending a day or two to unravel, and having the dates, you can get more at the library. There was more in the Newsweek article, I only copied on part for you, with extra names below I added. By the time this came out, I had already figured Marina Oswald's entry through Greek Orthodox Church, so this was of interest to see the links on paper.

What do you think of the New York Times articles? I was asked to speak on an FM station here in Carmel to discuss the importance of the 1964-65 escalation and the death of JFK. I talked for 45 minutes on all political assassinations, their importance in 1971 and particularly in the next year to come.

People called in questions afterwards, and there was a great response. The radio station has been swamped with calls... all positive, enthusiastic. They called back today, want me back again. I may do a daily show each morning, 20 or 30 minutes analyzing the morning news.. each day, and how it relates to the 1963 coup and other deaths.. such as new things on Bay.. like your book, suits on the archives, etc. Then follow this with 20 minutes of phone calls. The calls gave me a broad range of ways to answer questions, always on the basis of my knowledge of government, state dept, congress, etc. Will let you know if I decide to do this work. People are anxious now for facts.. and I can reach a lot of people this way.

Just finished reading carefully Kaiser's book... so that I could discuss it with him. That was 614 pages of nothing. About seven facts in the whole thing. How do people get away with this? And sell? It is at the Thunderbird books store here, now, in paperback. When I talked with Kaiser he knew nothing about the Sirhan connections to the Greek Orthodox Church. I know more about their background than he EVER WANTED ME TO KNOW.. OR HE INTENDED TO FIND OUT. Slick pat answers, put out in a hurry, which do not tax the brain or anger the sleeping citizen, like pabulum, roll off the presses.

Good luck. Hope this helps you.

regards
