

10/28/72

Dear Mae,

A friend has sent me a reprint of the very nice Pine Cone piece on you.

I have the answers to most of the questions you ask -all the medical ones and those you don't ask. Find me an "angel" and, although under the least commercial auspices, everyone can have them.

POST MORTEM, on the suppressed medical evidence, can be printed on completion of the appendix, a relatively simple job I've laid aside for work on the Ray case. It has mind-blowing documents that were not in the Archives. People you'd never dream would have spoken to me. I'd already proven what they said.

Even in Dallas, there was nobody who would not talk to me, strange as it may seem. (Most on tape.)

The questions you ask about Oswald? I've most of the answers and that book a third to half written and all researched.

Who destroyed the evidence? I've many of the answers, if not all. Ranges from signed receipts I have. Such is bureaucracy, it signs receipts. Ordnung Muss Sein. and organization, record-keeping, etc.

Who did it to Ray? That too and a better-than-reasonable answer to why, with an official record.

On Watergate I've things not yet indicated, connections not even conjectured. One of those cats scratched me in 1965. So, I'm interested in cats.

But I'm so broke I can't even afford stamps. This, by the way, is out-of-date Ozalid paper, so the yellow on the back is not the result of some examination. On that subject, however, I've even carbons of CIA surveillance on me.

We have more than most would imagine. It can be out when it can be financed.

I tell you these things not for use and I don't want them used, please. The time for that will be when each work can appear.

And there is so much more! Aside from the two concluded and successful suits, there is one now before the court of appeals in DC that will be precedent and DJ and other agencies are saying so, at least a dozen I can file at any time, including vs the White House and CIA and Army, under the Freedom of Information Act. I can probably file civil actions, too. But not alone. I was pro se once. Too much work for a non-lawyer.

The problem is not knowledge or evidence but financing; not the government's power but our lack of it and resources. And I'm mortgaged to the hilt and without income, so I can't do anything about financing.

Back to where I began: want the answers? Find me an ~~XXXXXX~~ "angel".

With survival, I can go much farther. I must have 3,000 pages of documents I've not even had time to read, aside from my own investigations, where I have hundreds of hours of interviews not yet transcribed. Even to what I'd never use or give: color pictures of showing JFK's blood. Is that close enough to the nitty-gritty?

Best wishes,

Ed-the story says Mae comes from the Magnin family. Thus this letter to see if she is willing to try to make things possible. I don't expect it, but I try. H
