

9/24/77

Dear Mae,

Ted has replaced my missing Slawson to Willens 9/22/64 memo on "Pending Matters" with a copy of the copy you gave him.

Ted marked his copy up with reminders for his own use of it, not at all inappropriate if one is making an appearance and citing a record.

However, I'd like to have one without what for my purposes is extraneous notations.

I'll then make copies for reference filing for when I can get back to the writing to which it is germane.

I hope one of you follows up on the missing translations referred to.

I have no help and am more limited in what I can do so everything is stacking up and backing up. I have thousands of records I've not been able to scan even. Ted has probably told you I've developed circulatory problems.

Ted has also told me about you and Lane. I'm sorry your learning was as disagreeable as mine. He is a dangerous and a sick man who has become the largest disinformation specialist. As well as a crook. If you have or can come across any tapes of his more recent appearances I'd like to be able to hear them. He has been incredibly bad here, making the wrong and false charges that become exculpatory of the federales.

Tapes are an advantage for me in other ways. The one exercise that is certainly good for me is walking. So I walk with a tape recorder hanging from my neck and listen. Ted has been particularly helpful with some of these. He is very unselfish. I appreciate it more now although I'd always have appreciated such kindnesses.

What I said about Lane also includes an interest in his spouting off in writing and in printed interviews. He did some of this promotion Code Name Toro (aka Zero). Very few people know anything about the King assassination so almost none can evaluate what he is saying.

Your copies of the records on you, which I am sure are not all, will be helpful if I have to litigate to get all of mine. I've gotten some real Nazi stuff, large in volume but small in percentage of what I know they have. Thanks for it.

I'm not making any public use of their dirty stuff because I want to get it all and because I think other matters are more important. But I'll give you a jewel, something I think will be gemahk to a rabbi's daughter. They have me celebrating the Russian Revolution (two months early yet in my anxiety!) with an annual picnic of 25-35 people. What it was is that when we farmed right after Yom Kippur a conservative rabbi friend with the Jewish Welfare Board brought up Washington area service personnel and their families for a day in the country at a real farm, with tame live animals. If the JWB is red who isn't? And what is more natural than Hoover's Gestapo friendships and picture-sending?

Best,
