We have checked the John F. Kennedy name and subject indexes to the files of the House Select Committee on Assassinations, 95th Congress, and have found references to two documents pertaining to the Western Cartridge Company. However, since the files of the select committee are not open to the public, except for such documents as have been published, we cannot disclose those two items.

We suggest, if you have not already done so, that you consult, for possible answers to your questions, the report of the select Committee (House Report 95-1828, Part 2) and its twelve volumes of hearings and of the appendices to them.

Sincerely,

A handwritten signature in cursive script that reads "George P. Perros".
