Dear Mr. Burden,
The work I heve done and am doing hes put me about $\$ 40,000$ in debt. I have not been able to pay the printer anything on FHOTOGRAPHIC WHITEWASH. I therefore simply cannot give copies away, rauch as I would like to. I want everyone to have a copy. The price is $\$ 5.00$, including postege and handing (bookstore price is \$4.95).

To date I heve printed four books. The flirst (end first on the subject) is WHTEWMSH. The second is WHITE NASH II. The last is OSWALD IN NE月 ORLENNS. Tue first two are S 5.00 by meil, the last \$1.50. Only the last is witaout pictyres.

Here postage is surface mail. It costs about $\$ 3.00$ per bo $k$ by air.

For what it is worth, I offer unsolicited comment.
The pictures you refer to do not show recovery of a . 45 slug. It is more likely e plece of broin. There is no evidence whatsoever thet it is a slug and a slug of thet charscter could not possibly have struck anyone or been fired from so close and come to rest there. Perhpps this explains the silence you report. Those pictures are ownded by the Dellas papers, which are refusing to sell copies. Perhaps Bud knows hom coples may be obteined privately. I do not.

Willis" slides can be bought from him for 77.50 a set. His address is 46911 Wabash Circle, Dallas, Texes.

If I ever knew who the man in Ex 2934 is I do not now recsll. However, it could not have been Crefard, who had left Dallas rather promptly. Billy Lovelady also resembled Osweld. amone meny. But your hunch is a good one. It would be worth trying to learn who the young men waiting in the PBI of ice was. However, the FBI and Commission, between them, has seen to it that there is no chronological ifle. God knows how wetd be able to know if we have seen ell of them - or if the Comnission ever get that one.

I wII not be able to pursue this further myself, but I'Il pess the tip along to those who might.

Sorry I cennot send you a free book. Hope you understand.

Best whea for your project.

## Sincerely,
