On March 17, 1978, Special Agent [redacted] St. Louis Field Supervisor, was contacted regarding additional information concerning this matter. [redacted] advised that St. Louis informant had spoken with Russell George Beyers who is a fence in the St. Louis area. [redacted]

[redacted] A copy of the original source contact memorandum was placed in [redacted] informant file and an 87-file, however, there is no evidence that Beyers was ever questioned about the meeting with the deceased St. Louis attorney. Additionally, there is no evidence that this information was ever acted on or disseminated outside the St. Louis Office. Beyers was arrested approximately two weeks ago by the St. Louis Police Department as suspect in a St. Louis museum burglary and this precipitated the file review which surfaced the information in question.

HOUSE SELECT COMMITTEE ON ASSASSINATIONS  
U. S. HOUSE OF REPRESENTATIVES (HSCA)

In the course of a file review conducted at the St. Louis FBI Office in an unrelated matter, a St. Louis informant file was reviewed. This file contained a contact memorandum dated March 19, 1974, which set forth information relating to several criminal matters and also contained the following paragraph:

b7D

Beyers talked freely about himself and his business, and they later went to [redacted] where Beyers told a story about visiting a lawyer in St. Louis County, now deceased, not further identified, who had offered to give him a contract to kill Martin Luther King. He said that also present was a short, stocky man, who walked with a limp. (Later, with regard to the latter individual, Beyers commented that this man was actually the individual who made the payoff of James Earl Ray after the killing.) Beyers said he had declined to accept this contract. He did remark that this lawyer had confederate flags and other items about the house that might indicate that he was 'a real rebel'. Beyers also commented that he had been offered either \$10,000 or \$20,000 to kill King.

Extensive further research in the St. Louis indices and files failed to reveal this information was in any way disseminated and the information simply reposes in the informant file.
