

Dear Jim,

4/12/75

You should remember the Hood senior who mounted all those Foreman clips, Sue Byrnes.

She dropped in unexpectedly with her younger sister while I was writing the Hails/Chapdelaine memo and stayed for several hours.

I have two points in this.

I asked her what she is doing and she is a detailperson for Burroughs Wellcome Co. I had a sinus headache and had been intending to get some neosynephrine. I asked her, jokingly, if she had something good for that. She asked me if I have high blood pressure and I said I don't.

She went out to her car and returned with a physician's sample of Sudafed. It is described as pseudoephedrine HCL only. No antihistamine. It comes in 30 and 60 mg doses. She gave me 30s. In 10-15 minutes the headache was gone. You might want to inquire into it.

She also offered to do any work I give her in the DC area. She is now living, apparently alone, at #821, 6034 Richmond Hwy., Alexandria 22303. Her phone is 703/768-7506.

I told her there might well be some Library of Congress tracings, including in city directories. She is willing.

She is conservative, bright, and learned a good way of thinking ~~things~~ things through in the British part of her education.

I think she is a very good person.

She has a car so getting to the library, she says, is no problem.

Best,
