Dear Mr. Weisberg,

I am an autograph collector and combine that interest with my computer skills and interest in collecting what I style *souvenir* transcripts, photos and profiles of participants/witnesses to the assassination. Your research/publications of the assassination events are most historical in my view.

I have typeset the enclosed profile of yourself as it regards the JFK assassination. I would be most grateful if you would autograph the excerpts for my personal autograph collection. As I have often found the case, what I typeset from other sources is not always accurate according to the person I am asking the autograph of, so feel free to write in any changes as you see fit. I have included a self-addressed stamped envelope for your convenience in responding.

Mr. Weisberg, thank you for this favor and for your service to our Country in pursuing the investigative research into the assassination of President Kennedy.

Very truly yours,

Larry Chenault

Harold Weisberg

“Considered by many to be the “grandfather” of assassination researchers, Weisberg has spent years pressuring the federal government to release documents related to the murder of President Kennedy. The basement of Weisberg’s home is filled with dozens of metal filing cabinets containing thousands of assassination documents. He is the author of several books on the subject, including the *Whitewash* series and *Oswald in New Orleans...* as well as a book on the assassination of Martin Luther King, Jr.”¹
