Dear Mr. Cheslock,

Thanks for your 1/11 and its enclosure .

As a matter of record I would like the Tip O'Neill transcript, thanks.

I knew he held that belief privately and that one of his top assistants was
trying to learn more to validate it but those of whom he sought information lived
by and believed in theories so O'Neill was never able to get the proof.

Rickey White is of no interest and unless Connally said more than he did in
his testimony or in the LIFE and other interviews, thanks for the offer but I
won t bother you for that.

Perhaps additional displays of Moore's ignorance and dishonesties would be
useful, so I'll appreciate a copy of that one.

                              Thanks and bes wishes,

                              Harold Weisberg

Dear Mr. Weisberg:

I hope this quick note finds that it has been a happy new year
so far for you and your family. My friend and colleague Ed Tatro
sends his regards from up here in New England.

As promised, I am sending you a copy of the second debate
between Cyril Wecht and Gerald Posner on Crossfire. This took
place last November 19, 1993. I hope it will be of some value to
your research on one of the most dishonest lawyers I have ever come
across. Posner shamelessly distorts facts in order to push his own
arguments. For example, he writes that James Simmons testified that
he heard shots from the depository. However, I have a video tape of
Simmons stating that he thought shots came from the picket fence area.
Enough of Posner!!!!!

I have copies of other transcripts from Larry King Live with
Tip O'Neill saying he now thinks it was a conspiracy to kill JFK;
Ricky White claiming his father killed JFK; Jim Moore vs. Robert
Groden; Governor Connally trashing the single bullet theory. If you
need any or all, let me know and I will send copies to you.

I know you are very busy, Mr. Weisberg, so I will close for now.
If I can be of further assistance, please let me know.

Respectfully,

Bill Cheslock
