

Dear Mr. Cavallari,

8/6/87

Please excuse this delay in responding to your kind and appreciated letter of 7/18. My health is not the best and it has slowed me down.

I'll enclose a list of my books, with an order form. If you do order any, please remit in U.S. currency because if you include a check on a Canadian bank out here in the country there is a not inconsiderable charge for handling it and if you include Canadian currency by the time we change it there is a considerable loss for us. Most Canadians arrange for a check drawn on a United States bank.

I did receive some records of the spectrographic analyses, after years of stonewalling and what little I could learn from them is included in Post Mortem. All the indicated tests were not made or, in the case of the curbstone, the FBI claims that the plate was destroyed allegedly to save space.

Robert Roden does not keep in touch. We are old friends, my wife and I are the godparents of his first child, and we almost never hear from him. He also is very bad on letters, almost never answering them. I don't know why. We remain friends.

I give no credence at all the Lifton's theory, really a fabrication, and the always-available evidence refutes it. I can't take time for details.

The acoustics is the only area of the HSCA's work I agree with. If it had not expected that to put the critics down it would never have had that work done.

Jim and Bud will, I'm sure, appreciate your thoughts. I'll send them a copy of your letter.

Best wishes,

Harold Weisberg

Dear Mr. Weisberg,

As a fellow assassination researcher, I would like to introduce myself. I am 27 years of age, and have been a very interested observer of the whole controversy for some fifteen years now. I've read most every book on the subject and have been exposed to some crazy "scenarios" on what really happened. But your writings have stood out as being the most cogent and responsible of them all.

There is one problem though. Not all your books have been available for research in this area. I have been able to procure "Whitewash IV", which is the only one I could find. (That was located in an obscure country library, 65 miles away!). I would like to know from you, if I would be able to purchase the following from you, and for how much:

- Whitewash I, II, III. (esp. "Photographic whitewash")
- Post-Mortem

admire the work you and your attorneys, Jim Sezer and Bernard Fensterwald, have done to try force the government to expose the truth. It is citizens like yourself who keep us informed, rather than in the dark. May you have luck in future endeavors against that colossus known as "big government". Thank you very much for your assistance.

Sincerely,
Anthony Cavella
