Dear Al,

It was very thoughtful and all three letterheads are very attractive but if I had them I'd not be using them.

And the cost of xeroxing any number of them make printing them very cheap.

It might save me a littel time but it would take that time and more by making me have to go to another place for it.

Remember how I have to sit and work and how little space there is on my desk.

and I'd have no space for any additional kind of paper.

So, I usually use what is closest to hand, most of the time the paper we use in the copier.

Not this, which was closest.

On when I'll be tied up, next week Monday morning, the 27th, until after lunch.

The next day I'll be at Hopkins.

The rest of that week as of now is clear other than for my early-morning businesses like walking and blood tests.

As of now I have no appointments for the first week of August.

The second week I have two.

Feel free to come whenever you can.

Thanks again and best wishes,

Al

Dear Harold:

I thought you might like to have some free stationary—here's how to do it. I came up with a few design ideas and numbered them. If you like one, just drop a line and let me know which one you prefer, or suggest a variation on a design. I'll print out a master of that design, and you can photocopy the blank master to have your own stationary. You could use white paper, or another color of 20# bond for a different look.

I've also been gathering a few clips for you. I'll drop them by next time I'm out your way. What's the best time of day to visit so I can get some time to look a few things up in your files? I don't mind coming quite early, if that's best for your schedule.

Cordially,

AR
