

6/30/75

Dear Jim,

Enclosed is a copy of the letter I'm sending Rhoads certified this morning.

You will see that I have been forced after all these months to make the request as one under FOIA to get the documents we need for proper and necessary use in C.A. 2284-75.

There has been stonewalling on each and every request I have made recently.

So, as I was writing this, I decided to make each into an FOIA request.

If we get the documents I need and am entitled to and it will make a better record for appeal.

I think that until they stop stonewalling and relaying I'll make each request initially under the law.

In time maybe he'll get the point.

With this and with the records of the past I'll also have quite a record from which to testify if there is an effort to gut this law in Congress.

If I do not get to enclose it, I'll also be making a ~~new~~ separate couple of requests, one an old one as I recall.

Meanwhile, these provide still another reason for asking for delay in court so we can have everything. I find no excuse and I think any judge will be hard put to find any excuse for this record.

Best,
