PRESIDENT, CBS NEWS CORP.
524 WEST 57th
NEW YORK, N.Y. 10019

DEAR MR. PRESIDENT,

I should address you as Dear Cowboy of the Trusting Minds, National Branch, but whoever you are and I add that I did not bother to inquire for a name because you will never read this letter yourself and therefore I will not waste my time trying to personalize a letter of sheer disdain to some rich fat cat who just happens to have as much power over this country as a god might endeavor to obtain. However, whoever does read this letter, read it and read it well, because it won't be the last you hear from me or people like me and it would do you well to take heed from it now, much more so than later.

Putting the lies on TV like you do as a normal operating procedure is generally accepted by far too many in this country but when you contort your network over backwards to maintain an official lie about the murder of our late President, it is time your liscence to broadcast is revoked. I say this with the most indignant voice I can muster. When I visit my parents on Thanksgiving for dinner and have my 15 year old sister, whom I love and care very much that her mind doesn't get ripped off by the likes of you people, tellsme that what I tell her about the JFK Assassination and subsequent government cover up is not true because she saw on TV that the Warren Report was true, I cringe and feel like taking matters into my own hands. Have you no ethical values? Pride you no prides??? It's one thing to rip off a pocket of money from someone but to rip off their minds, man that's obscene! And young people yet, man they're going to see through you as they get older and they are never go-

ing to believe anybody in the media ever and sadly to say, that may be just as well. The perpetuation of dishonesty and mistrust seems to be the in thing in this country by those who are supposedly to be in positions of responsibility and integrity. Man, don't you know when you say 15% and 15% only believe the Warren Report, that these people see through you?? Well, because of your goddamn lies of two seperate nights, my sister has had her mind ripped off and I am ripping mad. What do you all care aboutttdown there at CBS, what exactly is your motivation for deceiving the public?? Who is influencing you to promote such deliberate and false knowledge? I mean it doesn't take a legal mind to see through that bull shit! I was going to take notes on those shows for criticisms, but your arguments were so flimsy, I found my memory easily sufficient for your misrepresentation of investigative journalism!! Didn't you cowboys leazn anything from the originators of prevarication and deceit, the Warren Commission and Company?????

First off, you stayed completely away from all of the new evidence that makes even people like Jerry Ford cringe! I guess you hid it because it is irrefutable! Smart, I must say. Shame you have no ethics though. Whatever, I say what's wrong with the 6ld evidence. The same evidence that the Commission had? All it dees is show Oswald had to have been set up, just like he said himself, " a patsy"! You say, just because no one saw him at the time of the shots he did the shooting. Because we can see no farther than the horizon the world is flat we will surely hear Walter Cronkite expound some upcoming 7:00 news, huh??? And why didn't you mention Oswald's encounter on the second floor lunch room, some 75 seconds after the shooting, with a cop who had a gun in his belly and by two accounts, Oswald didn't even flinch and was his usual sedate self during and hence afterwards??? Sounds like some one would act, after blowing the head of a President off, doesn't it?? HUH??? Investigative reporting?? Objective news coverage. HOGWASH

And sure Oswald was a good shot because he was a sharpshooter in the Marines, RIGHT! Why did you omit his second and last evaluation which put him only one point over qualifying at all, and that he may have had a gun in his hand one time in a three year duration before the assassination? Needle in a haystack huh??? RIGHT! And what of all those varying descriptions of Oswald at the Tippitt murder? Or the fact that he was all over nation wide TV before he was ever in a line up?? Patsy? NAWW, you gotta be kidding! The FBI always gets their man, don't they! (?)

And, ah yes, Bullet 399, the one one whose mind we are in the process of recruiting for our newest missile, the one that leaves led in bodies but grows it back like regeneration never conceived!! The one you fire in assassinations and then plays hide and seek with you till you become exasperated and forget it's missing so it will turn up in just the perfect incriminating spot, some stray stretcher! Only drawback is that we're gonna have to brief it next time around on a small technicality, called chain of possession. Perhaps we better brief you all on it also, before the next special. Ah but what good would it do???

And how come you don't talk about the patsy element in the Miami plot of November 10th, 1963. You mention everything else but delete the most important part, the diversion of police by a "patsy"!!! But that couldn't be important or surely that isn't true. Or is it, no mention of conspiracy. TABOO by those who influence your freedom of the press is more applicable. Because, I am sure you have the mechanical skill of sheer logic! No integrity, because you prostitute yourself, but oh, some logic, almost surely. And where did Oswald get the initiative and material to print his Fair Play For Cuba Committee leaflets and how did he manage all the attention??? And anyone can see with their eyes within two or three frames where Connally is shot, and it destroys the 399 theory. And why have him on the show if you delete his most important (and his wife for that matter) statement, that being, he was hit by a separate shot!???

What does all of this say about our society when people

like you rip off the trusting minds of our country? Why not seek the truth? Are there no profiles in courage left to give moral support to a people who so desperately need to regain the faith to maintain the institutions of our government before they mutate to worse form? This country is not afraid of the truth. What we are afraid of is more lying. We have had enough. It is now convulsive to be lied to by those we should be trusting. Where is your pride man? Or woman if you are a secretary. Have you no pride as a member of this society built on faith in our fellow person? We all know that this assassination is unsolved and the government bent over backwards as did CBS, to lie to the nation. To be silent and let this be forgotten is cowardice. No backbone, just a tail between the legs. The crack of the whip and we will perform the kow tow.

Be aware, this is not the way it will remain and you are going to be exposed for your obscenity to the American people. America as a country has not given up, just because CBS NEWS has. You will learn there is still backbone and free will left in this country and she has been resilient in the face of adversity before and will again. This gross injustice will be corrected just as your FRAUD will be.

DISRESPECTFULLY YOURS,

Floyd Wesley Lamore Jr.
