Dear James.

Attached are copies of letter I have today written to the Federal Communications Considerion, NEC, CES, AEC and Westinghouse. I also have pending before the FCC now requests for time to respond to Foreman on CES and Rishop on Westinghouse. It has been a long, tiring morning!

I will give these to Bud for him to give or sail to you after he reads them when he is here this coming week. I discussed writing them with him in advance, as I had earlier discussed the whole ides with Jim.

In fairness to Bud, I think you should understand that he can't handle these cases for me. I would imagine if there is not a conflict it would be alleged anyway and besides, he is already overly-committed. his means that I'll have to seek other help. I do not know if it will be available, but if it is not I'll do what I can myself, as I have to this point.

If aki when there are developments I'll let you know.

Sincerely.
