HW:

I find little in this CR entry to suggest Hunt as the author, unless he was in a terrible hurry and just had to throw something together without really working it over to sharped impact. Sounds more like the work of some very tired committee employe hack.

Dear Mr. Heineman.

I have a special interest in the use that can be made by some of the more irresponsible statements by those who claim to be assassination experts, so before going to bed I wanted to read the 9/28/65 excerpt from the Congressional Record.

I note that in extending his remarks, Congresoman Price of Illinois (do you recall his first mame and what committees he was on?) did not give a source. You described this as "by the CIA in its special report to a "Select group of Congressman."

Was this your presumption or have you knowledge?

I have two friends I would like to read this. Parts will not copy well, particularly in the gutter edge, that of binding. If it presents no great problem to you I would appreciate

If it means going to the library to do this or anything like that please do not go

to the trouble.

Are you aware of anything else along this line?

As I read this it reminded me of several pages I have either loaned out or filed under a different subject that do deal with mind or behavior control. When I get them I'll send you a copy. If my recollections are correct, it is a paper on Soviet use of or state of development in mind control, something like that. The books are on the way.

bcc: Under date of 12/6/74 this man wrote me a 3-pp, single-spaced letter dealing with critics, his experiences not being able to find Joesten's books at the Library of Congress or mine except the first in his local (cincinnati) library and Harold Weisberg

making a reference to this as quoted above and to his interest in mind control. What took my attention as I read this is that rice did not give any source and the most likely source is CIA (hence question about committees-like maybe Military Affairs?).

And the further I got into it I wondered more and more if the author might be one of special interest. Then in CIA and then apparently in more or less this line of work. Hunt.

There is only a tanks genuflexion toward the Saint, Edgar. This deals entirely with CIA. It refers to materials not generally available and in several cases to what is not available, although that much could have come from a committee press release - if

He refers to no source of knowledge about WW IV that he said he wanted. I have done no broadcast except possibly one to a clear-channel N.O. station that he could have heard in Cincinnati (Ellenwood). If he saw the wire copy, 12/6 was late for a buff for

By another coincidence, it was about the time he first wrote me that I discussed with a friend on the National Enquirer their buying three pages I do have, from CIA materials, on behavior control. I had forgotten it in replying earlier. I had sent this

But nobody knew I had this. I had given no copies out and had discussed it with nobody else. It could be coincidence.

JDW: it was late and I did skim. This is so different from a novel one can't really tell, but do you see any similarities to Hunt's writing if you recall it as of the time

If I den't let you know in time that he did send other copies, I will pleasewent this back. This was made from a bound copy.

The question was raised a little while to by one of my good friends and colfigures that we as Members of the Confirst do not have time to spend on the sain of the District of Columbia. This why I believe even more strongly in my spreach. proach. Here among the Members of Congress we have the talent to do it, by we do not have the time to spend we do not have the time to spend tad to analyze the problems and to write the city of washington.

This proposal that I have offered will take the citizens of the District of Coambia in a thoroughly democratic fash-ba to elect 15 of their own fellow citi-bant to elect 15 of their own fellow citians to sit down and spend 7 months to sady this matter.

Or, of course, either House can pass a dissenting resolution if in the opinion of the Congress it is not in line with the best interests either of the Federal Government or of the city of Washington.

This in essence sums up my proposal. As I say I challenge anyone in this House of Representatives to tell me wherein their city and their own people and residents of their own districts do any differently when your city or your hometown seeks either an original charter or

There was no objection.

Mr. PRICE. Mr. Speaker, a major program to defame and discredit U.S. departments and agencies having re-sponsibilities for national security has

been conducted by the Soviet and Communist bloc since 1948. How it operates is explained in a paper, "The Soviet and Communist Bloc Defamation Campaign," which I submit for printing in the RECORD. Main targets are the Central Intelligence Agency and the Federal Bureau of Investigation.

The paper follows:

THE SOVIET AND COMMUNIST BLOC DEFAMATION CAMPAIGN SYNOPSIS

1. The Soviet and Communist bloc effort to defame and discredit U.S. departments and agencies that have major responsibilities for national security has been underway since 1948. A major program is almed at the Central Intelligence Agency and has grown markedly in quantity and intensity since the establishment of the KGB Department of Disinformation in 1959. This program now produces between 350 and 400 derogatory items annually. Communist press and radio attacks against the Agency reveal an increased sophistication in recent years. In addition, many Communist-inspired books and pamphlets which attack the existence, purposes, and status of CIA, and reflect a substantial budget for this activity, have appeared throughout southeast Asia, Africa, and the Near East.

2. CIA, in its intelligence role, is feared by the Soviete for the responsibility and ability.

CIA, in its intelligence role, is feared by the Soviets for its responsibility and ability the soviets for its responsibility and ability to penetrate and unmask Communist conspiracies, against democratic institutions, By Striking at CIA, the attack also centers on the intelligence community with purticular thrust against the FBI and Mr. J. Edgar Hoover. The objective of the overall program is to achieve the destruction, breakpears, and a neutralization of CIA. A heater reprogram is to achieve the destruction, break-up, and neutralization of CIA. A basic re-quirement of Soviet policy and a major ob-jective of the Soviet intelligence services is the destruction of effective security collab-oration among the non-Communist coun-tries in order to carry out Soviet long-term strategic plans for subversion, political up-heavals, popular fronts, and the eventual political isolation of the United States. 3, Defamation and forgery operations are

3. Defamation and forgery operations are conceived, directed, and perpetrated by a single organization located outside the target areas which makes use of local Communist areas which makes use of local Communist or pro-Communist propagandists and of coperating Communist bloc intelligence and security services. Although such undertakings are the products of the disinformation department of the KGB, known as department D, which is headed by Gen. Ivan Ivanovich Agayants, they are reviewed and passed on by the Soviet leadership. The operations of the Soviet Disinformation Department have been successful thus far in stimulating a wide replay in Africa, southeast Asia, the Middle East, and even in the United States. CIA will continue to be the prime target of CIA will continue to be the prime target of Soviet disinformation and defamation op-

SOVIET AND COMMUNIST DISINFORMATION

4. It is an established Soviet principlenow embraced by all members of the Commu-nist bloc—that a large percentage of subver-sive activity be devoted to the planning and conduct of disinformation (dezinformatiya) operations which moid, divide, and mislead other governments or leaders, and cause them to adopt policies and undertakings which are ultimately advantageous only to the Soviet Union. The Soviet leadership has charged the Soviet State Security Service, the KGB, to place very great emphasis, both organiza-tionally and operationally, on disinformation

activity. Communist bloc services, in turn, are playing their part in this work.

5. What are disinformation operations?
"Dezinformatalya," in Soviet terminology, is false, incomplete, or misleading information that is passed, fed, or confirmed to a targetted

and bite of disinformation.

d. Soviet disinformation activity is planned and directed by a specialized department of the Soviet State Security Service. This KGB department which was created to intensify Soviet disinformation activity, is headed by Gen. Ivan Ivanovich Agayants, a scullor, professional intelligence officer with long experience and well-developed agent and political contacts in Western Europe, especially in France, where he served under the name Ivan Ivanovich Avalov. At one time in France he controlled the French spy Georges Pasques who was sentenced to life imprisonment on July 7, 1964.

The assignment of Agayants to take over the disinformation task indicates the light property that the Chalcons of the

7. The assignment of Agayants to take over the disinformation task indicates the high priority that the then Chairman of the Presidium, Nikita Khrushchev, gave to the campaign against American leadership and activity. Chairman Kosygin and First Secretary Brezhnev have made no changes in that program. Department D is still directly tied into the Presidium in the planning of its work.

8. Agayants' department is staffed by an estimated 40 to 50 geographical and functional specialists in Moscow alone; it avails itself directly and peremptorily of the worldwide resources, manpower and operations, of the Soviet security apparatus. The purposes, broadly stated, of the disinformation department are to:

(a) Destroy the confidence of the Congress and the American public in U.S. personnel and agencies engaged in anti-Communist and cold way activity

and cold war activity.

(b) Undermine American prestigs and democratic institutions and denigrate American leadership with NATO governments and other non-Communist countries, thersby contributing directly to the breakup of the NATO alliance.

the NATO alliance.

(c) Sow distrust and create grounds for subversion and revolt against the United States in the Western Hemisphere and among the new nations of Africa and Asia.

These purposes and objectives, it must be emphasized, have been established by the highest elements of party and government in the Soviet Union.

9. Personal experiences with this program have been described by officers who have left the Soviet system and are now in the United States. One of these—Alexander Kaznacheev, who served in Burma as an information officer—described the program and the process in a recent personal memoir:

"Articles were originated in KGB headquarters in Moscow—for example, about alleged American support of the Indonesian rebels, frequent American violations of Cambodia's sovereignty, subversive activity of Japan in the region, etc. The articles were received from Moscow on microfilm and reproduced as enlarged photo-copies at the Embassy. It was my job to translate them into English. Some other members of Vozny's group would then arrange through local agents for the articles to be placed in one of the Burmese newspapers, usually pro-Communist-oriented. The newspaper would translate the article into Burmese, make

¹It will be recalled that Khrushchev, during his U.S. visit in September 1959, engaged in more than one discussion at the White House and during his tour designed to destroy confidence in American intelligence. His statements and remarks made during interviews, it is known, were prepared in advance in consultation with the department of disinformation.

gence receives an appearance of legitimacy and becomes a sort of document.

"But the work was not yet finished. I then took the published article and checked it against the original Russian text. I noted all the changes and variations made by the newspaper, and wrote down in Russian the final version of the article. This final version was then immediately sent back to Moscow, this time through Tass channels.

"The last stage of this grandiose forgery was under the special care of the Soviet Information Bureau, Tass, Radio-Moscow, the Soviet press, and Soviet diplomatic representatives abroad. It is their duty to see that the material is republished and distributed in all countries of the region as if they were genuine documents which had appeared in the Burmese press." 10. Although the KGB is able to fabricate

10. Although the KGB is able to fabricate in Moscow whatever material is needed for its distinformation operations, it has been making more and more use of material published in the West, some of which had been planted there by earlier distinformation activities. An examination of the books and articles cited in any of the anti-CIA pamphlets reveals extensive use of Western source material, often taken out of context. The most recent Soviet articles on the Agency are exclusively "documented" from Western books, articles, and newspapers.

11. In the 58 pages of "CIA Over Asia," a slanderous booklet published in Kanpur, India, in 1962. for example, American newspapers and magazines are cited 11 times, periodicals of other Western or neutral countries 15 times. The fact that some references are made to Communist organs is obscured by repeated citations from reputable

American publications.

12. A study of Soviet disinformation shows that the Soviets are engaged in an impressive research project to collect and process information and speculation about American intelligence and security services that appears in Western publications and newspapers. This study also has confirmed the deep interest of the Soviet services in the development and milking of Western journalists. Americans figure prominently among these.

13. The measure and depth of department D's activity against the CIA may be judged from a single episode. A booklet attacking the former Director of Central Intelligence, Mr. Allen W. Duiles, entitled "A Study of a Master Spy" (Allen Duiles), was printed and distributed in London during 1961, and has since been reprinted. The estensible author was a prominent maverick Labor Member of Parliament, one Bob Edwards, who was supposedly assisted in the effort by a British journalist. It is now known that the manuscript was researched in Moscow by a senior KGB disinformation officer, Col. Vassily Sitnikov, and then served up for final polish and printing in the United Kingdom. Mr. Duilles himself discussed this episode on

art. Duties ininsel discussed this episode on a TV roundtable on March 29, 1964: "Mr. HANSON BALDWIN, Well, that brings up, too, doesn't it, the question of disinformation? What kind of disinformation is being distributed by the Soviets today? Can you explain this Allen?

tion, anyway?

"Mr. Dulles, Well, this is it. Here's 'A
Study of a Master Spy.' Here's a booklet that
was written about me. Now, it bears on the
outside here, you see, 'A Study of a Master
Spy.' I won't give you the names of the
authors, but one of them is a member of the

legislature of a very great, friendly country. But the real author of this—I am the 'maste, spy'—I have found out recently after certain research has been done, that the real author of this pamphlet is a Colonel Sitnikov, whom I believe you know, or know of. He is the real author.

"Mr. Dervain. Sithikov? I used to work with Sithikov in Vienna when he was deputy the Soviet spy force, and he was the chief of an American desk, I mean, working against Americans. He was trained as an intelligence officer. One time he was a spy chief in Berlin and Potsdam, another time he was in Vienna. To my knowledge last time he was in Vienna. To my knowledge last time he was in Bonn as a counselor to the Embassy, but I mentioned him in my book and in the articles in Life in 1959, and it in my belief that he is at home now.

"Mr. Dulles. He has a whole dossler on me I've read some things there about myself that even I didn't know."

CONTINUING ATTACK ON THE DCI

14. The resignation of Mr. Allen Dulles and the appointment of Mr. John McCone necessitated a shift in the Communist attack on the Director of Central Intelligence. The Soviet propaganda transition from one Director of Central Intelligence to another was accomplished by June 1963 with the publication of a pamphlet entitled, "Spy No. 1." Issued by the State Publishing House of Political Literature in Moscow (June 1963), the substance of the book is summarized on the title page:

"John Alex McCone is the Director of the Central Intelligence Agency of the United States. Behind the exterior of a respectable gentleman is hidden the seasoned spy, the organizer of dirty political intrigues and criminal conspiracies.

criminal conspiracies.

"This pamphlet tells of the past of the chief of American intelligence, of the methods by which he amassed his millions and became the servant of the uncrowned kings of America, the Rockefellers, and of the influence which McCone exerts on the policies of the U.S. Government, particularly in the Cuban affair."

Cuban affair."

18. In November 1964, the Boviet newpaper Komsomol'skaya Pravda published a
further attack on Mr. McCone entitled, "The
Spy With the Silde Rule." Referring to Mr.
McCone's activities as Director of CIA, the
article acided, "Inder the leadership of McCone, the CIA was transformed from just an

owners, the Rockefeller group. All of the
mullitary adventures in Lebanon, in southess

16. On December 8, 1964, Moscow domestic radio stated: "The American newspaper New York Herald Tribune had reported that:

"U.S. Central Intelligence Agency bos
John McCone has secretly approached Preident Johnson with a resignation request " " the American press prefers for
the moment not to speak about the actual
reason for McCone's resignation. The reason
for it consists, in the first instance, in the
serious collapse of American foreign poler,
which, to a considerable degree, is formulated
on the data provided by the CIA. Basing
its activity on defense of the interests of
the largest monopolistic groups based on
the ideology of anticommunism and militarism, the CIA is proving incapable of a
more or less objective correct appraisal of
the balance of power in the world area.

17. President Johnson's appointment of Adm. William F. Raborn on April 11, 1965 gave the Soviet press another opportunity to review and renew its attack on the Direc-tor of Central Intelligence. Moscow domestic radio announced the next day that the appointment signified "the further strengthng of cooperation between the esplonage apparatus and the rindustrial monopolies.

industrial monopoles."

18. An editorial published on April 14,
1965 in the Tanzanian newspaper, the Nationalist, which was replayed by the New
China News Agency, claimed that Admiral

20. On June 5, 1965, the Greek Communist hewspaper Avghi, in an article entitled, "U.S. Master Spy, William Raborn," alleged that the appointment of Admiral Raborn was intended "to lessen the enmity between the ClA and the Defense Department Intelli-tence Service." The article continued, "The main reason is the fact that the key posts in the American administration are now being taken over by representatives of the op and overt forms of monopolist capital. the most reactionary force that leans toward dangerous adventurism. At least that is what the events in Indochina, Dominical Benefits can Republic, Congo, and elsewhere show.

THE COMMUNIST CHARGES AGAINST CIA

21. The themes exploited by the campaign of the Communist bloc against CIA, its Director, and its operations have remained Renerally the same since the beginning of the attack. Nevertheless, slants and replays have been constantly adjusted to changing sorid and regional political developments and to the vulnerabilities of target audiences and individuals, particularly in the newly smerging areas. The basic anti-CIA themes emerging areas. The basic anti-cuse at of midsummer 1965 are:

22. The increasing weight of the attack on CIA becomes evident when an examination is made of the periodicals International Afis made of the periodicals International Af-fairs. New Times, and Kommunist, all three of which are issued in Moscow, the first two in English and other languages. Interna-tional Affairs carried one major article on American intelligence in 1960 and another in 1962. Since March 1964, there have been five articles devoted to that theme. These articles have alleged in general that intelli-gence controls U.S. foreign policy and his articles have alleged in general value and genes controls U.S. foreign policy and genes. A primary aim of Soviet disinformation is to sow distrust among the Western allies by discrediting the policies and motives of the United States and American methods of the United States and American methods of implementing those policies. Considerable attention is devoted to creating apprehension, uncertainty, and antagonism toward the United States among the uncommitted and underdeveloped nations. Thus, the Soviets reiterate the longstanding Communist charge that the United States is imperialistic and seeks world domination. In late February and March 1963, CIA was subjected to an attack in the Ghana press and radio which attempted to tle the Agency to the death of Premier Qas-

An article in the Ghana Evening News for February 28, 1983 was headlined "Neo-Colonialist Terror in Iraq Menacing Threat Against Africa." On May 15, 1965, the Spark, a weekly Ghan-Inn newspaper, carried a front page story with the headline "The Secret War of CIA: The Killer at Your Door," According to the article, "This murderous game, which goes he the by the innocent-sounding name of 'intelli-gence', has its Western-World nerve-center in America's Central Intelligency Agency known briefly as CIA." Three recent pamphlets, "American Intelligence—This Is Your Enemy" (Calro, April 1964), "The Truth About Komla Gbedmah" (Ghana, October 1964), and "Operation Boa Constrictor" (Colombo, 1964) develop the idea that through its intelligence and aid agencies, the United States is engaged in a conspiracy to dominate the Mid-dle East, Africa, and Asia.
