SUBJECT : PROFESSIONAL SURVEILLANCE CAPABILITY  
[REDACTED]

1. Reference is made to Headquarters TWX dated 6 February 1974, SUBJECT above.

2. Records of this office reveal the following instances where wire tapping or electronic surveillance equipment was lent or given to municipal law enforcement authorities. These files did not indicate any occasion where such equipment was lent or given to any other U.S. Government Agency.

3. As telephonically discussed with Mr. [REDACTED] on 5 February 1974, the above information pertains to those assignments set forth under File No. 556 005 (Liaison With Municipal Agencies). This file was initially setup by the undersigned at Headquarters in 1970. Prior to that date, it is believed that field assignments relating to the subject of this memorandum were structured under File No. 75 149 (Operational Support General). Retired volumes of this file are stored in [REDACTED] and would have to be scrutinized in order to exact any specific applicable cases. It is also conceivable that other loans of audio equipment could have been approved and handled by various Office of Security officers and not made a part of any official file or record.
