

Howard, hasty thanks and short comment on your good letter to Belin and I think effective meeting with Griswold. (Next time try to take someone trustworthy with you.) I'm going to leave early for Mil. Bad weather. Cold, snow, ice, etc. And I've spent the day making individual packages of books for mailing, so there will be much to do tonight. I don't want to forget to say "well done!" and worth the effort.

Too bad you could not consult the original of my Carolyn Arnold work. The time actually was about 12:25 that she saw LHO and the current flap about investigatory crookedness gives added point to the FBI's dishonesty. Or, Belin is even more corrupt and even more of a whitewasher.

Griswold is without innocence, but it was good that you saw to it. I found some of the quotes in your student paper very worthwhile. He hardly hid his purposes with that thin piety.

Any word on your book? All of this should augur well for it. If the publisher ever gets it out.

Best, HW 1/21/75
