Dear Jim,

Dear Jerry, out days there has been little time for writing and such other work to be done, some not easy and under an assortment of pressures. One I refer to getting to where your most recent demonstration of personal and political maturity and integrity reminds me that for close to a year you have been promising to retrieve and deliver my irreplaceable foundations file, your charming friend Linda was going to card index. For always changing and superficially reasonable reasons you have managed to avoid this. In this past month, as I am confident I have reminded you, I have needed it and could not consult it. During the long time I have not heard from Linda or Don I must have asked you about this more than a dozen times. Tonight, he completed my affidavit, I swore to it today, and via took it back with him. It is what I insisted upon, a direct confrontation. If you can take the time from your new career of Judas who occasionally conceives himself, as God, to do what you should have long, long ago, would you PLEASE get one of them to send it to me or get it yourself and either send it or give it to Walter, who I am reasonably confident will either hold it until we are face to face or find a safe way of getting it to me? Of the Star and I talked this evening, and he admits what I suspect was not in his story, that Jaworski lied. This is to say deliberately. Fortunately, if Kelly it would be my preference, if you are capable of conceiving that there is anyone in the world who has any notions worth considering other than your conscience, that it be sent not by mail but by Greyhound, with maximum insurance and by phone on the outside. I will then drive in for it when they phone me, as they will, but it arrives, they broke that a man whose name and organization were involved so very publicly had no knowledge I would be deceiving you if I said I have immediate and urgent need for it. I do not. Preparing to cope with what you and your self-seeking friends all of whom signify their (and your) unconscionable behavior with lofty protestations of truth and its and your purity and dedication to it requires that I abandon everything else and that leaves me less time than there is. It is simply that I want it before it goes the way of everything with which you have any association.

Clarence's story in this morning's Post is rather weak. This stuff is at the end and this is too much trouble for you, as I suspect anything responsible is, I hope you can leave your private Heaven long enough to talk me how to reach Linda and/or Don so that once again your baby's ass can be wiped and independently it shows after reading, not on my part.

Tomorrow will be a busy day for Walter. His Friday mornings are always taken up. I will try to phone him in the afternoon to see if he has a messenger service so that this file can be picked up at your office. I'd hate to trouble him, if there is one thing you have demonstrated it is that you cannot be trusted with yesterday's scrotal wastes, and that file ought not be lost. They show what seems probable. One of the interesting possibilities is an Allen at the head of "Fair Publishing (Jaworski) and another both getting and sending tax your capacities, will you please at least get it? Howard, who is but a child compared to you, is dependable. He will be in New York and he will not find that with which any child but you can be entrusted too burdensome. At some point and in some way he will get it back to me. In any event, I will feel much more secure with it in his custody, as if the staff gets its back up and walks out? There will be a stick, but anything else?

I would recommend that instead of tabling and delaying you do something for a change. Something not disputable, that is. Don't be tempted to object to my language, for if you do, I will get it when the shock has worn off, when I am less tired, and when I would really tell you what you deserve. Best to fire Mackin after his story that Oswald worked for the FBI, so, the Houston Post is today and theobby Foundation was a fellow Houston CIA conduit at the same time as the Anderson Fund. So, one Glanik got another to use the exposé. Who has been terrified since, I told Orr the story, and Art. I urged him to include a check on his directorate.

What a cowardly press! After enough know that Jaworski was exposed publicly as part of the CIA operation all are silent at his open, blatant lie about it. Here is the real problem, cowardice and fear. Best,
