

CIA Batch D, 950-927V to 1035-960

FOIAs:

Hoch 95-927V to AB

more on picture. Y says Johnson has Liebeler memo saying CIA took it.
Z has indications of domestic intelligence in speaking of Hoch as "has some connection with Ramparts."

CTIA: 958-927 AD

On same pix. Bud told CIA he knew man. (Sounds like "quick notion.") AI indicative of "Saul" and McDonald?

987-397 1/20/65 cable says deM in Haiti received 9/30/64 letter from E.F. AJDO 325, Juadala-
jove (Jalino) Mexico. Mail cover? X 990-935 reports FBI then preparing "voluminous"
report on deM - this is dated 2/10/65. Address corresponds to P.O. Box 325, Juadalajara,
Guadalajara. 999-938-it is a large French-owned department store.

994-937 3/1/65, they had the ms of the Ford book and comment unfavorably.

995-928, same as 755-324A on Oswald at Helsinki and getting him there.

1007-951 may include mail cover when Oswalds in US

1016-402 11/16/65 Hqs still interested in anything that can be learned from Azcue on
Oswald visa application.

1024-954A 6/10/66 critique of Inquest. refers to prior books printed in US. One 2,
Sylvan Fox's and mine.

1035-960, dated April 1 in typing and 1/23 in hand, both 67, is on critics but is intended
for "Chiefs, Certain Stations and Bases." I.e., most if not entirely abroad. Its arguments
are essentially those used universally.

The one-sidedness extends to what amounts to censorship of what its Station and base
whiffs can read. The attachments are all articles by supporters of the Commission.
