About the time Whitewash IV appeared Lonnie had a visit Irom Stapleton, who drops in on him from tise to time to keep up tho relationship and apparentiy to rom interest tomnie.

## It appears he is not thwelcone if not still onnnected.

He thought I melght have haurd frok ismegnoryth, of whom wo talked a bit. Not too long ago Aynaworth visited hin, gaying he had rusigned frow Howsweak. He then used what L described as a foover," a yarn i did not believe that he was in that oity to work onx a story about a faith hesaler.

## "In'm convinced he is atil2 with tho Agency," In add.

Ao hateadgarizisom, awended from mere hate to detestation, appurently bacause Garrisou made sexual udvances at the WOAC to thes son of the French consul in W.O. $I$ asys he has wead zeporte on this, that identificatsion is positive (he saw the State Dept. meports), and there wero other cases.lle did not reoall the name MOAC but gave an accurate dascription.

However, this Btory, which I believe $L$ believes, breaks down beaause $A^{\prime}$ 's position was fixed and fime before Gampison started up and becauso that alleged incident came late in the so-called "probe" pariad.

L is also convinced that Gounden is not agoncy and does not believe the Harren Report. I told hin about the Wachingtonian story. He has no ready explanation.

However, his only posuble explanation for what Coulden did is that he served another, non-journnlistic. intereat. (re Washfigtonian phece, which I deseribed.)

But, he than remeabared that Gourden had gono to sers hin with an offer from the publisher of Superlanyors for Lonase to do whit he deacrived as a hatchat job on HoLollunt. For money. L resented inis much.

The advance was to hzve been $\$ 30,000$.
L had worked for Hunt. To begin with he did not gey wheh Kmt/ g wantod han to chop. Ho seamed to react stangly to this, evpecailiy that ho would to sorsthine against principle for money.

He presuanes that Goulden nentioned the possibilities of an anti-jumt book to his publiaher, not the other way around.

He'21 ber coring here soor.
