

RUSHED TO PUBLICATION!

This book will make front-page newspaper headlines on April 9th with startling disclosures about the Kennedy assassination, The New Orleans Conspiracy, the Warren Report and, especially, the men who have become famous attacking it.

CONGRESSMAN GERALD FORD says: "THE SCAVENGERS AND CRITICS OF THE WARREN REPORT is an accurate and hard-hitting answer to those skeptics and doubting-Thomases who seek prominence from the American tragedy of November 22, 1963. The authors deserve great credit."

BOB CONSIDINE says: "This book is the steady voice

of reason demanding careful attention in a noisy wilderness of doubt and conjecture . . . Lewis and Schiller develop new evidence . . . and shed fresh light on important phases of the inquiry hitherto partially or totally submerged in blizzards of words and mountains of exhibits."
