Mr. Raymond Carney
News Director
Radio Station WBEA
Mission, Kansas

PERSONAL

Dear Mr. Carney,

Enclosed is a copy of an FBI report of an interview with you on December 11, 1963, by Agents Daniels and Arnett. You may keep it if you'd like to. It is pages 272-4 of the 205th file of the Warren Commission.

I would very much appreciate all the detail and simplification you can provide. Your recollection seems pretty clear on some points, as of the time of the interview. You perhaps realize that for part of the period, this could not have been the real Lee Harvey Oswald.

I have written a number of books on the Kennedy assassination and describes a "False Oswald" who, in one or more forms, keeps cropping up. I think you will realize that, prior to the assassination, Oswald was a relatively unimportant figure who would not normally be counterfeited. There are, however, at least two cases where, when he was in the Soviet Union, his name was used in negotiations for the purchases of vehicles in New Orleans alone.

One of the things that would be helpful would be knowing who interviewed you when and, aside from what you told him or them, what you may have learned or assumed from the questioning.

As you can see, I am being careful not to try and direct your recollection in any direction because I would like your independent recollection in as much detail as possible.

Thank you very much for any cooperation you can offer.

Sincerely yours,

Harold Weisberg
