Dear Mr. Weisberg:

I acknowledge receipt of your letter of December 17, 1968.

For your information, during the course of the investigation, I heard the rumor that Oswald was employed by the FBI or CIA at the time of the assassination. I forwarded this rumor to the Warren Commission and insisted that they check it out. I did not make a special or hurried trip to Washington for that purpose, but handled it on one of my numerous trips there during the Warren investigation. As you know, I, or my special counsels, sat in on almost all of the hearings during the investigation. So far as anyone from Texas sitting in on the hearings was concerned, this rumor was explored and investigated and found to be false.

Yours very truly,

WAGGONER CARR
