Dear Herman,

I write you directly to save time. If you'd like a review of Case Open in New Zealand and perhaps Australia

Dal ~~McGuirk~~ McGuirk, 95 Pah Road, Epsom, Auckland 1003, New Zealand, is a friend, a history professor, a writer and he has just sent me a copy of his adverse reviews of the Posner and Groden books, possibly the only adverse reviews of Posner in that part of the world. It was in the largest NZ paper, the Herald. He has another historian friend, on the other island, who teaches a course in the assassination, as Dal plans, so I think that without a review or <sup>distribution</sup> ~~circulation~~ there the slight cost will be recovered.

Dal has written about me and against the official mythology for several NZ and Australian papers. I sent Richard a copy of one.

He is also an expert on the Nazi armies and has had books on that subject published in England. I think one is in the works now.

He also has a good connection with the largest NZ weekly and has written for it about me. It is The Star.

If you decide to send him one, I suggest by air. Surface mail takes forever because it is a very long trip by sea once it is on a ship.

Best wishes,

Harold Weisberg
