9/15/95

Dear Herman,

I find your determination not to ~~make~~<sup>make</sup> money impressive.

Beginning five days ago you should have recognized the ~~dream~~ situation in which you were <sup>in the Page-one Simpson case</sup> when there was reporting of and controversy over the FBI Lab agent Whitehurst who said that they fabricate evidence and lie and do other nasty thing they should not.

You had the chance all over again two days ago when the FBI said it had investigated itself (again) and found it did no such things.

And you have a book with FBI pictures of the FBI fabricating evidence in the most terrible of crimes in our country, the assassination of a President.

You have more of this in that book and you also have it in Case Open.

And, consistent with your intense desire not to ~~make~~ money you have been keeping it secret.

All of this and more like it on tap and you alone have it!

Two pages of NEVER AGAIN! were eliminated after I went over the proofs. I presume that this not being an accident because it was repaged someone there can tell me which they are so I can tell those who complaint about the index to me what adjustments to make.

And, of course, know for myself.

I've just been using the index to inform Johnnie Cochran for whom, if he uses your secret, it can get him at least a good press. If he ever sees it with all he is now into.

If the FBI has not already killed all such stories, as it did in today's "ash. Post, there can be another possible chance next week from the news I heard on TV this morning. Whitehurst is to be deposed next week.

Sincerely,

Harold Weisberg
