Lear Jar. Meisbere,
Received evengthing OHR
Again, thees for the hind wards.
twill he glad tranewer
any questions about anyone if it is possible, so fine away. o han many things
to take care of and to take care of anil will der what you Raw asked as soon as d eau.
(aver)

For the sake of simplest and better understanding of will. repartall to the head office. This well sone time and trouble and make for better communucat. ions.

Then you mild the negating the bitts mos stapled to the envelope. ats you have a copy that es an can send or do you want whet I have so you carl
 al

# wh 3/29/88 

Derr A1,
I am gled you sent the cliprings, particularly on Bobby, for thet did not eppear In, nut locel papers and is nuch longer and nore informstive than ahat the NOT York ${ }^{\text {I }}$ qes corried.

On my questions, because you are busy, suppose we for the moment restrict them to what I seiced in my letter of Merch 22\%, and one other; what you can tell me ebout ong Filay Yates, who I understand Is a drack shot, has quito an arsanal of weapons of verious sorts, includins exploaives, and is or was an oxygen technicien, quite posielbly employed et parkland Hospital 11/2e/63.

I have bean tald thigs about him by friendas of his who ara not lexans thet rravokes intereet.

Pou ssy thet for the sake of simplicity and better understanding a will ement report all. to the head office." I think doing this will hove the opyosite affect. I sugasst instas that you eithar ksep a copy of everything until it is completed end then send it or let me make copies here, coordinste with what else I heve, and then send it, finen it le done. The reasore ere these: first, there is fust tos much of s load there, unc if snything gete there piecemeel it can get lost in the files. Soconc, I want to guard egeinst the ercom thetinere nede with the use of three sewer pictures. These errors were because the informetion was incomplete and whet informetion was on hadd was not canvletely understood. I reported whet you had, giving f its souroe, the moment I got your first pictures. Thile the publicity wes very extrnsive, it wea lese then it could bave been and the informetion given the people did not includ the most importent poseibilities. It \& much better, for the future,

If we cen send s complete psckege vith a covering memo, of which I cen send you a copy. For the moment I think it is also bettar if they concentrate, to the degree they cen, on their immediate problem, which is not these things, Fiemember, eilio, thet when e sath is under a special kind of presaure for a fonc time, he wears from it. Therefore, if one is to be kelpful, it is essentisi to to what is possible to not add to that pressure and to reduce the number of tiring things to which he is subject. He still have a very long pull phead of us, snd wetd beet not exheust anyone if we can help. it.

One of the things I have wanted very much to be able to do you alrost arranged twice. That is to heve a chance to be heard by the people of your area. It dike to be oble to sey, with or whthout mentioning nemes, shat people have done to help bring out the truth ned how important this is, most of il 1 to the people and especielly to the buainess laterest of the area. I think when those people who have knotledge underatend they will be more willing to meka ft aveilable gne less giraid ton I elso
 long as they bswe sacrets, for then there can be sn lintspest in clocing whatithouths to hide the secrets. Once they are net alone posseseed of thoge secrets themetis no resson to hurt them, in fect, every resson not to.....Eक्षever, I em without furibs and loadsd with debt, so it is not posifble for me to go there unless my experiscs are paid. Therefor, if I am to do this, it must be by phene.

In youn pote you ssked if I have a copy of whet I sent you. I do Do you need another copy? Ie it thas you damot reed whet I sent you: If this is the cese, I'II send you a copy if you tall pee

In the naar future, I will be making a broadcest by phone to a san Antonio radia station. I think that on the program or another one I can do the sever-picture story by phone. I think it would be better if I hed two sets of pictures both merked with the same numbers. Then the man with the show would have in his hend exactly whet I aII talking about. For thie purpose the first set of pictuifs Exswer you took, In August, are the important ones, together with the pictures that show whet might be a . 45 slug. of these I heve a set of enlargements you sent me. $S_{0}$, if you could send me one set of esch, I coula mail them to thet station after I nark them both with the seme numbers. They can be the same size as the first set of prints you sent. They need not be vert lerge for him to be able to see what is involved. Can you do this Without too muck troubie. I heve other things that relate to this, only some of which Jim used [ for example, I elso heve FBI reports thet relste that I have nerer uaed-snd I've lad them for a year and a half waiting for a full stary). Now in the Budiy Wal thers sequence, there were two photographers who took pictures. I think that What you had pere those by Beers. I he d one of the other set. I sent thet to im and he never returned it. Can rou get the other set.

Unlice some ouners morking in the field, I 11 se to give full credii to others.
 any wisegivines if II nere to sey exaotly what you ilio sud credit you by farde should you foar thet it might racuce the chsnces of succese of other thinga you mightar try,

In the fiture, In eny thing yon serd me that I vill ev ntually want to forward, please use r reguler size shoot of paper snd only one efde. The y I cen marke 8 photocopy that mili be clear. nlesf you heve misgivincs, fnclude your name so there will be no queation ab outrthe source.

Sincerely,

Herold velaberg
