

Assassins' Names Hidden by U.S., Garrison States

Makes Charge in Dallas Interview

DALLAS, Tex. (AP) — Jim Garrison, New Orleans district attorney, said on a television show Saturday night that the federal government is concealing the identity of President John F. Kennedy's assassins.

Garrison, who professed to have no further political ambitions in answering a question from interviewer Murphy Martin, made his comments on a copyrighted production by WFAA-TV, Channel 8, in Dallas.

The district attorney also showed Murphy, and the television audience, pictures which he said were of a "fed-

eral agent" picking up a .45 caliber bullet which Garrison said was the "bullet that killed Kennedy."

Standing beside and watching the man picking up the .45 caliber bullet, were two men the district attorney identified as a Dallas policeman and a Dallas County sheriff's deputy.

CAN'T IDENTIFY

Garrison said he could not identify by name any of the three men but said the picture was taken less than 10 minutes after President Kennedy was shot.

The district attorney said the man whose bullet delivered the coup de grace to the President of the United States stood in a manhole that connects with a

drainage system under Dealey Plaza.

The New Orleans parish official said the assassin, after shooting Kennedy in the right temple, escaped by going through 18-inch and 30-inch sewer pipes under the plaza.

CAIRO (AP) — Arab foreign ministers met Saturday to gain agreement on the date for an Arab summit and to draft an agenda calling for joint action to force Israel to withdraw from Arab territory it captured during the June 5-10 war.

Disagreement developed immediately over the timing of the summit conference to be in Rabat, Morocco. Sources said Morocco accused some Arab states of trying to slow preparations.

They reported Moroccan Foreign Minister Ahmed el Iraqi insisted the foreign ministers fix a definite date in the third week

of December.

At the closed-door meeting, sources said Omar el Sakkaf, Saudi Arabia argued that the summit should be put off until Arab governments met and discussed the Middle East situation with Gunnar Jarring, U.N. Secretary-General U Thant's special representative to the Middle East.

The Swedish diplomat left New York Saturday to set up headquarters on Cyprus. He has a mandate under a Security Council resolution to make the rounds of participants in the June war in an effort to settle the continuing Arab-Israeli conflict. The resolution calls for eventual withdrawal of Israeli forces from Arab soil and an end to the state of belligerency.

Jarring faces long odds in arranging any settlement. Informants said Israel holds little hope in Jarring's mission and Presi-

dent Gamal Abdel Nasser of Egypt has made it plain his government does not consider Jarring a mediator between Arabs and Israel.

JAPAN TO BOOST ITS PEACE CORPS

TOKYO—The Japanese Overseas Cooperation Volunteers are proving to be popular abroad. As a result, the Foreign Office is planning to further expand their activities in the future.

According to the Overseas Technical Cooperation Agency, a total of 182 young men and women have been dispatched as volunteers since the program was initiated three years ago. The countries where these people are engaged in activities include Cambodia, India, Laos, Malaysia, the Philippines, Kenya, Tanzania and Morocco.
