2/21/68

Mr. Al Chapman  
2920 Perryton Dr.  
Dallas, Texas 75224

Dear Al,

Here are your negatives. To preserve them, I am returning them by registered mail. I have, from the time of receipt, kept them in the pouch in which you sent them to me.

What you have done is, I think, important. There is, in my mind at least, no doubt that a shot from the grassy knoll was more than possible. I find that where I used these pictures on TV or showed them to the moderator of a radio program, they were very persuasive. Many of us theorized, based on solid evidence, but you went out and took the pictures that show it was possible. If you have a chance, there are a few others I'd appreciate your taking for me. What I would like is a flat shot, taken across the high sewer opening behind the stockade fence, preferably with flash to eliminate shadow. I am anxious to see and to be able to show the change in the concrete under the fence at the opening. Flash will eliminate the shadow caused by the cross member. I am also anxious to know what it may not be possible to know, whether there was dirt or concrete below the fence at the point the sewer is.

One other thing interests me very much, if you can find it out. What caused the patch or repair in the fence? Was there a gate that was eliminated?

Of course, I can speak only for myself, but I do think I speak for everyone in saying that we are all indebted to you for what you have done. Whenever I use these pictures, I credit you by name, with them. Because it has never been on a network and I have never been in Dallas, you do not know this, but it is so, in Washington, Chicago, Los Angeles and San Francisco.

Because you once told me you are of what is known as the "radical right", I try and recall that to mention it. I think it is important for everyone to know and understand that this is not a political issue in the sense of political parties, that truth is the need and the common desire of all Americans, and that while I think that the responsibility for the assassination is from the right, it was only a tiny fraction involved and most abhor it, and do what they can to learn the truth.

I also thank you for your efforts to get me aired in Dallas. I hope something yet comes of it. I am so deep in debt, I cannot think of going there for a broadcast. However, if those who have show ever change their minds, I'll be more than willing to do it by phone, as I will tomorrow to Allan Dale, for the third time, at WOAI, San Antonio. In same ways, on radio, it is more exciting.

Please keep in touch and let me know anything else you learn. Have you the time and disposition to try and learn other things for me? Have you responsible connections, for example, at the sheriff's office? Hospital? One thing I'd like to know from the hospital that I've asked Penn to try and learn is the names of all the technicians and orderlies involved in either the emergency procedures or very close to the area at that time.....Again, my sincere thanks.

Yours,  
Harold Weisberg
