

Reverse explains this and future brevity. Grea backlog, much to do and slowed down. Happy with your praise of Jim. He can't get enough and has earned more than he'll get. ...Didn't know you and Bud had case together in Miami. Good beginning for you! Hope it goes well....Glad to get clip, too. If you see others, welcome them. I have lecture bureau now. On trip to debate Belin (with results you've seen) at Vanderbilt 11/19 required help and was laid up couple days thereafter but I do get around some and expect travel to become easier. Not that I expect Memphis engagements!...You've overpaid and according to our records you do not have the transcripts to which you refer. (I've filed for all those I've not already forced out.) One is in PM, the other in WW IV. Forget about the difference. I enclose it...I didn't just "discover" the transcripts. I've been trying for them since 1966-7! You should as a lawyer see the records 'im and I have made in court on this (C.A.2053-73 or 4, IV will say. And in the one now on appeal discussed in 4th pt PM, 226-75. When Jim and I are not under restraints we fight our own hard way and risk the threats of which you will read....See you are with Russell. Best to him. If you see Jay Friedman, from whom I've not heard, tell him if he did not get the books I sent to let me know which and I'll replace. Perhaps he was too busy to acknowledge but I did not forget to send them a year ago....If you hear from Martin Waldron about Angus McEachern I told him to look you up on this re Hoover's now disclosed forcing MLK to Lorraine. He is a fine human and one of te best reporters.... We never had time to discuss what I was able to do with what I learned from you that helped me with my Battle inquiry, not completed, but if you hear more, even rumor, please let me know and please say nothing until I can put it all together. In time I will. ...I'm hopeful we'll prevail in 6th circuit and we'll be back there again. Best HW 12/1/75

Dear Harold,

Please forgive me for my long delay in corresponding. Trying to make a living practice law has taken most of my time.

Saw Bud in Miami on another case. He said your new book is out. Got back to Memphis and saw this article in Commercial Appeal. It might give your book a good boost in the Memphis area. Congratulations.

I have been keeping up with case. I have a copy of the brief Jim filed with the Sixth Circuit. It is a masterpiece of legal literature. Give Jim my compliments.

Enclosed is \$15. Please send a copy of the book. If \$15 is not enough, send book anyway, and bill me for the remainder. I will pay promptly the balance by return check.

Your friend,

*Wayne*

P.S....I also want to congratulate you on your coup with Warren Commission earlier in the year. Your discovery of that transcript has aroused doubts and skepticism of many who have never had any doubts about the Warren Commission findings.
