Dear Jay,

Although I'd finished that part of the work, I'm still glad to get the dope on the Chicago police Klan cell.

Recently - have obtained a transcript of part of a phone interview with ~~xxxxxx~~ someone who had gotten much information from Jerry Milton Brooks, of the Minutemen. It has many names in it but not nearly all the names Brooks provided.

One of these may be new. I have not kept close to exposures of the Minutemen. The typist who transcribed the tape also was not familiar with some of these names. However, if it is of interest to you, you are welcome to it.

Let me know if you'd like this and next time I'm in town I'll bring it in.

If it got into the papers, it was in none I saw today. However, I understand the Nazis raided the headquarters of some peace groups in Washington last night, destroying property, discharging stink bombs and leaving their insignia as calling cards.

Again, thanks.

Sincerely,

Harold Weistberg
