1/21/77

Deaf Dan,

By the way if seemingly strange coincidences that are part of life today is the first time I've seen Jim since you were here. You left and the snows came and I do believe you have some viewing of TV. So today I gave Jim what is to be copied, with written directions on returning the originals to you.

Separately and after putting our heads together ⁴¹¹ and I think you are lucky to have Nikki.

Where you refer to what you have obtained at the Archives although much of it is familiar, like Parrett Jungle, KKKK Fiorini, Johnny Martine, etc, it is never possible to be certain. I may have every page and others you do not refer to but after a decade I cannot recall. It would be easier and cheaper for me ~~to~~ if when you can you make copies for me and tell me what the cost is. Notably was I always use duplicates - there is always the chance that with the passing of time I have learned what I did not know 10 or more years ago. If you will be kind enough to do this please let us know what the costs are and we will send a check.

The same is true of the new page on Miltner. Until I read it I cannot tell if it is new to me. Please include it and its cost.

Of these you met with at the committee the one I knew is Kevin Walsh. I have met him twice, once when he came here with someone I had met earlier and once by accident. It is my impression that he is a good person.

On their Miltner and other Andersen leaking, except for the Mr. X b.s. you should be able to relate this ^{to} ~~the~~ Franco-Up and my earlier books. Now it just happened, by one of these least normal coincidences, that this followed upon their getting from Jim all the copies of Franco-Up he had. The Odie-Hall stuff is in my first two books. So do have to tell you how much investigating they did, how original this is when their book is restricted to less than ¹ published and does not ~~include~~ include what I have known for years and have not published?

Their Mr. X story on the face is impossible because Oswald can be accounted for ^{with} specificity that precludes his then having been in Dallas. Or they didn't even bother to check. His nonsense is an improvisation on what was given to Schweiker by one of his constituents.

If I knew of the Miltner phone check I do not recall it. The time period is not easily explained. It is on the basis of what the FBI knew abnormal. I think that if you can follow this it may lead you to a story. The check began too late and extended too early. Did you use the criss-cross on the Miami phone 379-1031? I doubt it would have significance but the checking and eliminating is worthwhile.

Andersen used in p.r. operation, to pressure the Congress...The informant symbols may have a code but if they do I've forgotten. I think each FO arbitrarily assigned them. Thus AT T-2 could be atlanta T-2. The descriptive language can sometimes be read, like source of proven dependability can be a tap or bug...Did not catch Fereman on the late show. I get up early and do not stay up for them. He always says he saved Ray's life...After this gross Miltner misrepresentation suggest real care against kickbacks. They may come up with investigations showing no relevance and such bragging. I could believe it. My point was how could it not have been fully investigated. Our best, thanks and hope you get ~~up~~ again seen,
