Mr. Harold Weisberg

Dear Mr. Weisberg:

Pursuant to our phone conversation via Harv Morgan's studio yesterday --

Enclosed find two interesting iconoclasms gleaned from my most immediate surroundings. Their origin, of course, must be kept wholly confidential. Sorry for the incompleteness of one of them, but the remaining portion was not in sight.....but there is much more, if and when.

I shall send, under separate cover, more pertinent details about myself and my own estimates on how best to forward your cause on the broadest possible plane. Generally this will incorporate substantive support from both the academic and media quarters. But first, there should be a completely organized plan of action - a pro forma of sorts - followed by structuring of an Executive Directorate to keep momentum from flagging. Not a Warren Commission concept, but rather a tight cadre of doers.

Yours in an individual effort that warrants both acknowledgement and support. Perhaps I can aid in some usefull way.

Sincerely Yours,

JONN G. CHRISTIAN
