Dear John,

I have just finished photocopying the 320 pages of the intended appendix of OSWALD IN NEW ORLEANS. I will have it with me, and quite a few other documents not included in the appendix and not in the published "evidence". This morning I had copies made of some of the pictures I took in New Orleans. I will also have slides of them. Then I am in N.C. I intend to take a few more, that is, pictures that will be of the same thing but a little better. Some was a problem in one, my own carelessness in another. What I have can be used. But they can be improved. It depends on how much time we have now much visual stuff I can have for TV. While flying around (I do not expect to be able sooner) I'll make a rough index to some of the documents so I can reach them rapidly in a pinch. I hope!

It is important that I know as soon as possible whether I can do the 1000 appearance. I have written Steve Burton but he hasn't replied. I have some nice stuff on Liebelar, as you know. If I speak at his school (meaning into his beard - the way they made him out of to be on the staff of the Warren Commission, if my recollection is not in error) would be a nice time to unveil some of the visuals - especially if they have an opaque projector there. Otherwise, why hold it back? Steve is a good boy, but he is a student and preoccupied as students are. Maybe Hal can find out what he can.

The real purpose of this letter is to let you know that I have finished my flight out of Chicago, giving me less time that night in L.A. There are some changes in the schedule due to the shift in time. I leave 11/00 on American #47 at 6:30 p.m. and arrive at 8:31. This uses up 26 of the 27 minutes we had from tomorrow to today. For the same reason my flight out of L.A. is advanced 25 minutes.

From Parallel I learn that their ER people (who they are missing out) have apparently lined up nothing. Unless Steve and Bill are doing something in L.A. I have nothing there, except possibly Fyne. That I do not know. This also would be good to know, for I think much can be done by phone. If you can also learn this, I can tell you where I was before. I think most will remember with satisfaction my predictions about the Kennedy-Manchester suit. Was I right! And, thus, were they!

I am confident no banquets are being prepared, but for the possibility of sturgeon, today I was put on a bland, 1000-calorie, diabetic diet. Not that I have diabetes, but my blood sugar is high and this is to reduce it. In six weeks further tests. No sweets, no starches (not deserts -oi, voy!) no drinking (theoretically), no soufage (and the only reason I'm only 200 is because one meal a day has been omitted), smaller and more frequent meals....I've got Dallas planned. I think it is good. Think wise that we'll have N.C. distribution. I'll show you a letter I wrote the distributor's lawyer!

Best,
