Dear Jonn,

Bill Dick sent me a carbon of his story. By the time I could copy it and mail it, you'll be getting in in print. It is pretty good, with some detail but nothing more than I told you. No pictures, but perhaps they'll be with the text when printed.

By this time you should have gotten the letters I referred you to while you were in San Diego, where you go in the morning.

The only other material thing is too long, complicated and expensive to copy to give you until I add it to COUP. That is the untold part of the Duarte story and his connections. It is another Bringuier, even with the connections leading to Hargis. I hope to have this written before I leave. In a couple of days I expect to be back on the writing. At the least I expect to leave the revisions for Lil to do in my absence.

They may be fairly extensive. I've stuff to add in several areas.

From your silence, I presume Cook and Phoebe have no interest. Once they reach that determination, please get back any copy they may have.

Hal has not yet returned the original ms of O in H.C.

Best,
