

12/21/67

Dear Steve,

Just returned from N.O. tired, aching, further behind than ever, but gratified at what I think may turn out to be some rather successful investigations and other developments. Of one that I cannot now commit to paper I presume you may have already heard. Others I will tell you about when I see you.

The considerable reaction I have had to the Pyne Show confirms my judgement, that it reached an audience we had never before tapped. Its effect, from my mail and phone calls, was good.

Thanks for your card. Sorry we have no time for them, but we are happy to be remembered.

For your files and information, I enclose the latest and I sincerely hope last exchange with Ray.

Please let me know when Maggie expects to return. When you see my friends, please be my Christmas card and tell them that I do wish them the best holiday season and a better year to follow.

With all best wishes,
